This prohibition will affect all beer, including that now being produced by many manufacturers, containing 2 1/2 per cent alcohol, for which the internal revenue authorities now issue stamps without having decided specifically whether this production violates existing laws and regulations.

Reports today indicated that many brewers were rushing their output of beer so as to acquire before next Thursday stocks to fill demands between then and June 30, when prohibition becomes effective.

GLASS TO REVIEW PARADE IN OMAHA

Visit of Secretary of Treasury Expected to Boost Subscriptions; to Hold Reception at Hotel Fontenelle.

The visit of Secretary of the Treasury Carter Glass to Omaha today is expected to give a big boost to subscriptions in the Victory Liberty Loan campaign. Secretary Glass left Chicago last night and will arrive here at 9:10 this morning.

T. C. Byrne, state chairman of the Victory loan, will head the committee which will meet Mr. Glass at the station. Others in the committee will be O. T. Eastman, Luther Drake and W. A. Foster. Mr. Glass will be taken to the Hotel Fontenelle, where he will hold an informal reception for bankers and business men at 10 o'clock.

At noon he will review the "One Hundred Per Cent" parade made up of the employees of firms which have subscribed 100 per cent to the loan and have received the Chamber of Commerce banner. At 1 o'clock he will deliver an address at the Chamber of Commerce, at which Ex-Senator Millard will preside, and will leave for Denver at 4:30 in the afternoon.

Reach \$2,500,000. Omaha subscriptions to the Victory loan crawled up to the \$2,500,000 mark at noon yesterday, which is a little more than one-fourth of the total quota to be raised in Omaha.

However, the army of workers is not downhearted. Although the week was started with the intention of getting the entire sum by Saturday, the national drive really runs until May 20, and so the prospect of getting Omaha over the top is considered good.

The Union Pacific railroad employees had a big parade at noon yesterday, ending at the court house, where, with appropriate ceremonies they took charge of moving the Liberty ship forward to the \$2,500,000 mark.

Attorney McGraw of the Union Pacific railroad legal department, made a short address.

Secretary Baker spent nearly two hours in strolling along the lines of troops, most of whom were nearly six feet tall. Meeting soldiers of his stature, five feet six inches, and some even smaller, Mr. Baker asked one of the smallest if he had seen any Germans captured.

Hoover Gives Huns Warning Will Stop Food Supply If Disorder Keeps Up

By The Associated Press. Berlin, April 24.—A message to Germany by Herbert Hoover, director-general of the inter-allied relief organization, has been published in Berlin, warning against a continuation of the strikes and disorders, saying they were endangering a continuation of the food supply.

The message has brought about serious discussion in the German newspapers, which is best reflected by the Boerszeitung, which says Mr. Hoover's note is an ultimatum to Germany. "Mr. Hoover says shortly and sharply," the Boerszeitung continues, "America has no desire to restrict itself in order that its grain ships may be sunk in the Elbe and its fat kegs may disappear through the riot of a few thousand Spartacans, or that its potatoes shall ruin in warehouses because they cannot be transported."

"America has the good will to save all from starvation, provided there is assurance of a state of order in Germany. Otherwise there will be no more supplies."

ARREST OMAHA MAN WITH 1,200 PINTS OF LIQUOR

United States Marshal Lies in Wait for Truck Driver at Freight House; Companion Escapes.

Five barrels of whisky were seized and Harry Conley, driver for the Foley Auto Delivery company, Omaha, was arrested late yesterday afternoon in Council Bluffs. The arrest was made by Deputy United States Marshal Fred Shoemaker.

The whisky is in pint bottles packed in barrels, and comprises about 1,200 bottles. The shipment was consigned from Kansas City to "John C. Woodward & Co., which is a candy manufacturer. The Woodward company has the right to buy alcohol for manufacturing purposes, but has to go through an elaborate procedure. This was done early in January and the supply for the year secured.

The purpose evidently was to lead officials and railway men to believe that the shipment was intended for the candy factory.

Watched Depot. Shoemaker hung around the Burlington station for two days waiting for someone to call for the stuff. Yesterday afternoon a big Foley truck drove up and two men, one an Italian, entered the freight house, one of them asked for the goods. They didn't have money enough to pay the freight charges, and drove away. Half an hour later the truck returned with the driver alone in charge. He paid the freight bill and loaded the five barrels. Then Deputy Shoemaker took possession.

Conley refused to make any statement or give the name of the Italian. He is locked up in the county jail.

PARIS STRUGGLE MEANS FATE OF CIVILIZATION

Senator Hitchcock Declares That President Wilson is Sacrificing Popularity for League of Nations.

United States Senator G. M. Hitchcock, addressing a gathering last night at the Omaha Athletic club, declared that there will be wars and rumors of wars if the constitution of the league of nations is not adopted by the nations.

A dinner was served to 200, which included members of the club and their ladies. T. C. Byrne introduced the senator, who devoted his time to a consideration of the league of nations and the events leading up to the conference now being held in Paris.

"Unless something is done to prevent it," he said, "the nations are going on in the same old periodical wars. The outlook of every nation has been to prepare for war. The great question before the world is whether something can be done to prevent these wars."

Accusation Without Grounds. "I want to get clearly in your minds the accusations that President Wilson assumed too much when he went across the seas, is entirely without foundation. An act of congress embodying the idea of a league of nations, was passed while war was still raging. The league of nations has congressional sanction.

"If a league of nations is not adopted, despair and hopelessness will spread over Europe and the nations will prepare again for war."

America Led World.

"America has led the world in making it democratic. The autocratic governments of Germany, Russia and Austria-Hungary have been crushed in the dust of history. I believe that it is now possible to form a league to abolish war and establish peace. Unquestionably after a period of probation Germany will be admitted.

Union Heads Urge Publishers to Aid in Fighting I. W. W.

New York, April 24.—Appeals to American newspaper publishers to aid in fighting the spread of ultra radical principles were made by the heads of two international printing trades unions today at the annual convention of the American Newspaper Publishers' association.

Hays, secretary and treasurer of the International Typographical union, and Matthew Wool, president of the International Photograph Engravers union, addressed the convention.

Mr. McHugh said that many members of local unions had been carried away by the doctrines of bolshevism, but that officers of the international unions of the printing trade were strenuously contesting their spread. He asked for the cooperation of members of the publishers' association in coming in the evils of principles advocated by the I. W. W.

WARTIME DRY LAW WILL BE ENFORCED

Department of Justice Will Prosecute Violations of Ban on Production of Beer and Wine.

New York, April 24.—The government proposes a literal enforcement of the wartime prohibition act, including a ban on production and sale of all beers and wines, whether or not they are intoxicating, the department of justice announced through a special representative in the federal court today.

While no steps will be taken to prevent brewing, pending a court determination of the law's constitutionality raised by brewers of the New York district, manufacturers will operate in peril of future prosecution, according to the statement of William C. Fitts, special counsel appearing for Attorney General Palmer in the beer litigation.

Nonintoxicants Under Ban.

The attorney advised Judge A. N. Hand, who heard arguments on the government's motion to dismiss the suit brought on behalf of the national brewing interests by the Jacob Hoffmann Brewing company to restrain the federal authorities from interfering with its production of 2 1/2 per cent beer, that the department of justice did not know and did not care whether beer of the strength indicated was intoxicating.

The law prohibited sale after June 30 of distilled beverages, as well as manufacture after April 20 and sale after June 30 of "beer, wine and other intoxicating malt or vinous liquors for beverage purposes," pending the demobilization of the military forces, he said.

Object Is to Conserve.

The words "beer" and "wine" were not qualified, in the opinion of the government, he added, and the apparent congressional intention to stop the waste of grains and fruits in their production in any strength would be enforced.

With "half the world" looking to America for food, Mr. Fitts contended, the necessity of its conservation was greater even than on the day of Chateau Thierry, and it was equally essential that liquors be withheld from public sale, while the army and navy were undergoing demobilization.

To this statement Judge Hand added his opinion that the war "was still in progress," which upset one of the complainant's contentions.

Secretary Glass Leaves Chicago on His Way to Omaha

Chicago, April 24.—Secretary of the Treasury Glass, on a western tour in the interest of the Victory loan today, expressed surprise at the enthusiasm of mid-western communities. He expressed the belief that the loan would undoubtedly be subscribed and very likely over-subscribed.

"However, the one thing which should be guarded against is overconfidence," the secretary cautioned. "I came out from Washington to make an appeal," he continued, "but everywhere I have gone so far, I have witnessed high triumph of the general American patriotism."

The sooner the loan is subscribed and put behind us, the better it will be for the business of the country." The secretary left Chicago tonight for Omaha.

Business Conditions Reported Good, With Confidence Growing

Washington, April 24.—An encouraging view of present business conditions throughout the United States and a hopeful outlook for the future is given in a comprehensive report on the business situation prepared for the Chamber of Commerce of the United States by Archer Wall Douglas of St. Louis, chairman of its committee on statistics and standards.

"It is still one of the wonders of the time that the present volume of business is so large," the report says. "Confidence in the future is growing as is evidenced in the campaign for sales of fall and winter goods now being waged by distributing interests."

In taking up the industries individually, the report says the railroads are "in a serious condition" and declares that if they were turned over to their stockholders in their present condition, it would mean bankruptcy to the entire system.

BRAVE ARMY READY TO SEIZE AND HOLD DALMATIAN COAST

"Fiume or Death" Watchword Adopted by Popular Demonstrations in Support of Government's Territorial Demands; Premier Orlando Returns to Lay Case Before Parliament; Others Stay.

By The Associated Press. London, April 24.—Public opinion in Italy, according to a wireless message from Rome is much excited against the peace conference for refusing to recognize the Italian claims.

Apparently there is a complete truce in party politics and the newspapers are unanimous in blaming the allies. It is declared that feeling is running so high that it might have a disastrous influence on Anglo-Italian relations.

"The Italians consider that they have been betrayed by the allies," the dispatch says. "The whole nation is aroused and has rallied to the support of Orlando and Sonnino."

"There is a brave army ready to make every sacrifice for the realization of their program."

"Many popular demonstrations have taken place, and the watchword adopted is 'Fiume or death.' "If the conference does not accept the Italian point of view, the situation will become extremely serious."

Orlando Goes to Rome. Paris, April 24.—(By The Associated Press.)—Premier Orlando and Signor Barzilai will leave for Rome tonight. This decision was announced after Premier Orlando's return from his conference with the other members of the council of four.

At which, according to the Italian premier, only questions of principle, and not territorial questions, were discussed. This is explained as meaning that the discussions centered on the question of prestige, involved in the publication of President Wilson's statement, and that no effort was made to reach a settlement on a territorial basis. The conference lasted two hours.

Threaten Forceful Seizure. King Victor Emmanuel has telegraphed to Premier Orlando commending his action and insisting that there be no recession from the position Italy has taken.

Italian Premier Rebukes U.S. President for Issuing Appeal to Italian Nation

Paris, April 24.—Vittorio Orlando, the Italian premier, today issued the following statement in reply to President Wilson's declaration regarding Italy's territorial demands: "Yesterday, while the Italian delegation was discussing counter proposals which had been received from the British prime minister and which had for their aim the conciliation of contradictory tendencies which were manifest concerning Italian territorial aspirations, the Paris newspapers published a message from the president of the United States in which he expressed his own thoughts on one of the gravest problems which has been submitted to the judgment of the conference."

"The practice of addressing nations directly constitutes surely an innovation in international relations. I do not wish to complain, but I wish to record it as a precedent, so that at my own time I may follow it, inasmuch as this new custom doubtless constitutes the granting of nations of larger participations in international questions and, personally, I have always been of the opinion that such participation was the harbinger of a new order of things."

Loyal to America. "Nevertheless, if these appeals are to be considered as addresses to nations outside of the governments which represent them (I might say even against the governments) I should feel deep regret in recalling that, inasmuch as this new custom doubtless constitutes the granting of nations of larger participations in international questions and, personally, I have always been of the opinion that such participation was the harbinger of a new order of things."

Sees Breach in Barrier. Citing the president's argument that the concessions granted bring Italy to its natural defenses, the Alps, Signor Orlando says: "His recognition is of great importance, provided the eastern flank of this wall does not remain open and that the right of Italy should be interpreted to include the line of Mont Nevoso, which separates the waters running toward the Black sea and the Mediterranean." He recalls that the Latins from the earliest dawn of Italian history designated this mountain the "Italian limit."

"Without this protection," says the premier "a dangerous breach is left in this admirable barrier of the Alps, rupturing the unquestionable political, economic and historical unity of the Italian nation."

A Hungarian statement says that the Roumanian communist troops behaved at several points with complete lack of discipline, especially before Debreczin. This attitude of the part of the troops led to withdrawal from that city.
