

OMAHA, The Second Live Stock Market of The World.
 It has the most Modern Stock Yards in the World today—no expense has been spared to make it so.
 It is situated in the center of a territory producing more food products than any in the World—hence the largest demand for feeder sheep and for this reason OMAHA is the LARGEST FEEDER SHEEP MARKET IN THE WORLD.
 Railroad facilities are unequalled, being the only Missouri River market located on the main lines of all the western railroads, the shrink, therefore, on shipments to this market is less than to others.

Omaha converts the raw products of the greatest farming community, of which this city is the natural center, into finished products for the markets of the world. Among a few of the many articles bearing the trademark "Made in Omaha" and which can be found in every part of the civilized world, are:

Omaha is, therefore, the first direct-ship or primary grain market in the United States. The city became a grain market in 1904. In less than 15 years it has grown from nothing to the first primary grain market of the country.

THE BETTER CREAMERY BUTTER
 Is always preferable—that's why most people insist upon using

The Omaha Grain Exchange is the most modern exclusive grain exchange in the entire country and represents an investment of over \$1,000,000.

Transportation facilities into Omaha are such that grain reaches the market quickly and the cash returns to the shipper are quick. The turn-over is greater.

Omaha holds a unique position—it ships grain to all other markets, but receives no grain from any of them.

Production is increased, more money is brought into the state, and everybody is benefited, all because Omaha is the third largest implement center of the country.
