10,000 PINTS OF LIQUOR OPENLY BROUGHT HERE

But It Is Contraband Seized by Federal Officers and Will Be Put In Storage.

A large shipment of whisky, estimated at 10,000 pints, was received yesterday by the internal revenue department over the Missouri Pacific railroad. Ten armed revenue agents guarded the shipment from 4 o'clock this morning until it was transported

In trucks to the federal building.

The whisky represents several seizures during the last two months in the vicinity of Falls City, Neb. The most recent seizure, at which time ten men and a woman were arrested, alone netted 4,000 pints.

"Floor" Tax Unpaid. The internal revenue department will hold the whisky for formal seizure by the federal court.

The internal revenue law was not only violated in the transportation of the liquor into a dry state, according to Deputy Internal Revenue Collector Gillan, but there is no evidence that there has been any "floor" tax paid on the product.

addition to all this trouble, she had rheumatism in her arms and legs, and I have known her knees to be so badly swollen and pain her so bad that she could hardly walk across the room, and sometimes her elbows would be so stiff and sore that she couldn't lift a sun of sore that she couldn't lift a cup of cof-fee to her mouth. She was in so much pain that she couldn't find a comfortable position in bed, even, and it was out of the question for

her to get a good night's sleep.
"Tanlac has made such a wonderful improvement in her condition that she can walk, and get around about as lively as she did when she was a girl. I am fifty odd years old, and I have never seen anything into the great in my life equal to the way my wife has improved since she commenced taking Tanlac. Why, she eats just anything in the world she wants, and never has a sign of indigestion, and she is never bothered with those awful pains in the small of her back like she was. And, best of all, she is entirely free from that rheumatism. Not an ache or a pain does she ever have now and she sleeps like a baby every night. All her strength and energy have come back to her and she has gained a lot in weight. In fact, Tanlac has simply made a well, happy woman of her, and we never lose an opportunity to speak a good word for this great medicine. I am glad to have this chance to recommend Tan-

Thousand Visitors at Big Plant for First 'Open House'

More than 1,000 Omahans took advantage of the first "open house" at the Sprague Tire & Rubber Co.'s factory, Eighteenth and Cuming

Those interested in Omaha's promising new industry streamed into the great factory building steadily from 8 a. m. to 5 p. m. Eight company employes acted as guides, each directing groups of from 15 to 25 all day. Even mothers with babes in arms, and even grandmothers and grandfathers, were in-

"Every motorist-everyone who rides in a car-wants to know how tires are made," said E. H. Sprague, president of the company. "Many were unable to go through the plant Tuesday. We have no secrets here, and we want Omahans to feel that this plant is theirs. So we'll make

every Tuesday 'open house'" The entire process in tire building was shown. Visitors were particularly impressed with the pure Para rubber "biscuits," the great calender that shoots the rubber, and the giant vulcanizers where the finished Sprague tires are cured and moulded. Many thought the tires are built by machine, instead of by hand. Cord tires, particularly Cords-for-Fords, caused lots of
