WARNS PEOPLE TO INVESTIGATE BEFORE BUYING

Many Promoters Attempt to Sell Stocks in Violation of Blue Sky Law: Hall Makes Statement.

Lincoln, May 8 .- In an effort to educate the people of the state against methods which are being used to practically violate the blue sky law, Chairman T. L. Hall of the State Railway commission this morning issued the following statement:

"At this time an attempt is being made to flood the state of Nebraska with stocks and securities of a doubtful nature and in practical violation of the blue sky law. Adverters of the investment offered is tising matter is being spread broad-cast by means of circulars, letters of this commission first." and even through the press, solicit-ing mail orders in such a way that the sale will be held to have technically taken place outside of the state and thus escaping the necessity of submitting to an examination of the investment venture or the securing of a permit under the blue

Democratic Agent Who Is Pushing Fight Against Code Law Has Not Accepted Challenge of Governor.

Lincoln, May 8.-Fred C. Ayers general promulgator of the plan of the democrats to discredit the work good, has not yet accepted the administrative code law.

Mr. Ayers is willing to admit that class wth the governor and probhave a reputation as a speaker, scrapper in logic and a general knowledge of the bill in general.

Mr. Ayers will issue a statement in a day or so in which he will discuss the matter of a discussion and probably attempt to switch the anti side of the matter to some man who knows more about the bill than he does.

PUTTING THE

BULLSHEVIKI CONFECTIONERY.

PENING your mail these fine war-taxed mornings is something like smoking a dynamite cigaret in a forest fire. The bullsheviki are turning the parcel post into four-zoned arsenal. A yard and a half Premier Clemenceau spoke standbullsheviki confectionery-bomb-bombs-were discovered in the trocity department of the New York postoffice. They were nediately popped into water, which is the worst insult you can slip a

Opening a love letter loaded with kisses and T. N. T. is a poor way

spending the summer.

These bullshiviki tid-bits look very stylish until they're opened. Then ful management cannot be insured, of a republican legislature by in-but a permit is a certificate as to the voking the referendum so that the

Your relatives discover that the tid-bits were more bits than tid.

The best way to open a bundle of bullsheviki bomb-bombs is to let it people will not have a chance to stay closed. If you don't, those chocolate coated hand grenades will try out the laws to see if they are blow you right past 16 straw hat seasons into a No. 678 halo.

that a married man's wife doesn't assist him to pick out. Still, it's an invalid zephyr that doesn't puff somebody good.

That bullshevik business of converting the parcel post into an am-

munition train is going to discount curiosity on the part of fourth-class as a debater he is not in the same postmasters. The gimlet-beaked bird who pokes his nose into everybody's 3-cent-stamped business is liable to do it once too numerous

ably recognizes the fact also that the man who goes up against Gov.

Samuel Roy McKelvie in a joint debate on the code bill has got to reason why it's hades for a postmaster. Easily.

Meals a La Blooey.

If the bullshevik idea is perfected, the breakfast food birds will sell packages primed with trinitro-cellulose, happy brides will shimmy up the aisle to the tune of a package of Chinese shooting crackers. Charlotte russes will be equipped with fast burning fuses and French pastry will explode on contact.

Surgeons will blast instead of operating and any grapefruit that fails to detonate will be a dud. If any married couple live long enough to get gray-haired, which is about three weeks under the bullshevik dynasty, they will celebrate the nitro-glycerine anniversary of their wedding by strafing each other with bouquets of T. N. T. mixed with dynamite blossoms. Life will be one explosion after another with another in between. There will be no excuse for carrying ear trumpets.

Puts the Dampers on Alimony.

The only flareback to the bullshevik method of packing love letters is that no jury will stay parked in a box while a halibut-eyed lawyer tries to read Sweetie's letter to Hon or Hon's epistles to Sweetie. A bomb tied with a baby blue ribbon is still a bomb. And a jury of 12 good men just naturally hate to stroll through the ceiling and leave a jury of 12 good widows waiting for 'em to rattle home to a cold supper so that they

can knock the 12 good gents colder than the supper.

Letter carriers will have to anchor off Gravesend bay with the other ammunition boats, and no guy will approach a mail box until he is sure that it isn't loaded. Any bird who gets a letter postage due will have to stay in quarantine until the letter blows him out of it.

The Exit.

The only way out of the fine young dish of spaghetti that the bullsheviki have tangled us up into is for Woody to sharpen up a 15th point compelling everybody to write on postal cards. Then the world will again be safe for prominent men and other democrats.

Build up for the Spring Attack! Put the body in condition for an invasion of the germs of grip, pneumonia or "Spring fever."

At this time of the year most people suffer from a condition often called Spring Fever. They teel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin and white lips.

The reason for this is that during the wintertime, shut up within doors, eating too much meat and too little green vegetables, one heaps fuel into the system which is not burned up and the clinkers remain to poison the system-a clogging up of the circulationwith inactive liver and kidneys. Time to put your house in order.

For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and a wholesome skin, nothing does so well as an herbal extract made from Blood and Stone root, Oregon grape root and Wild Cherry bark, which has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the nerves feel the effect, and neuralgia or other nerve pains disappear because such pain is the cry of the starved nerves for food.

Atchison, Kans.—'For a great many years Dr. Pierce's Golden Medical Discovery has been our household remedy. In one instance expecially I found it to be wonderful. When my boy was convalescing from scarlet fever he had breaking out in blotches all over his body, face and limbs. One bottle of 'Golden Medical Discovery' completely cleared up his skin and also proved a splendid tonic. Personally I have found the 'Discovery' splendid for bronchial troubles and catarrhal conditions."—Mrs. M. E. Mills, 710 Atchison St.

Melvern, Kans.—"I was troubled with scrofuls, in fact, I had it from infancy up until I took Dr. Pierce's Golden Medical Discovery, which was when I was fifteen years old. I took about fifteen or sixteen bottles of it and got entirely rid of the disease. It has never returned since that time and I have often recommended the Golden Medical Discovery' to others."—Mrs. Ida V. Wilson.
