The critic was once of service to the world of letters and arts, but his day is now ended and he has become a nuisance. We can get on without him. The reviews and criticisms of the present time are little more than expressions of personal likes and dislikes.

"I have sought repose everywhere, and have found it only in a little corner with a little book."—St. Francis de Sales.

Elaborate Plans Are Being Made for Benefit Bridge to Help Creche Children.

The kiddies at the Creche, are not to be forgotten this year and elaborate plans are being made for the benefit bridge to be given May 26, at the Fontenelle. Mrs. Warren Rogers, Mrs. John A. McShane are the committee in charge, assisted by Mrs. Joseph Barker and Mrs. Harry Jordan. Bridge will be played and many beautiful prizes have already been donated for the party. This home, where tiny babies and little folks receive tender care while the mothers are working, is one of the worthiest institutions in the city. The appeal of childhood can never be resisted and when one can fulfill their obligations and enjoy a game of bridge at the same time the opportunity is not to be missed.

Before the Advent of Woman's Gladness

Women Who Know Take Precaution Against Suffering.

Before the arrival of the Stork, women for over half a century have learned the wisdom of giving nature a helping hand. Nausea, nervousness, bearing-down and stretching pains in the abdomen and muscles are entirely avoided by the use of Mother's Friend, according to the testimony of thousands of mothers who have used this time-honored remedy. Mother's Friend lubricates the fine network of nerves beneath the skin, and by regular use during the period the muscles are made and kept soft and elastic. They can then expand gently and easily, when baby is born and pain and danger at the crisis is naturally avoided. Mother's Friend is a preparation of penetrating oils and other medicinal agents prepared especially for expectant mothers. It is for external use, is absolutely safe and should be used regularly during the entire period before baby comes. Write to the Bradford Regulator Company, Dept. A, Lamar Building, Atlanta, Georgia, for an interesting Motherhood Book, and obtain a bottle of Mother's Friend from the drugstore. You will find it the greatest kind of help—Adv.

Insignia Worn By Mrs. Chase and Corps "Q. D." Is None Other Than Quartermasters Dept.

An opening day at the Maytime luncheon room at Orchard-Wilhelm's conducted by the Associated Charities there were many questions concerning the insignia worn by Mrs. Clement Chase and her corps of workers. The letters seemed to signify Officer of the Day and as Mrs. Chase is superintendent of the dining room this seemed quite appropriate. However, they are Q. D. and Mrs. Chase and her corps of workers are very proud of the fact that they are members of the quartermaster's department. The beautiful appearance of the tables, the fresh flowers and shining silver are due to the efforts of Mrs. Chase. Her assisting committee includes Mesdames Charles Offutt, Henry Wyman, Victor Caldwell, Warren Rogers, Milton Barlow, Wallace Reynolds, A. P. Overgaard, J. R. Scobie, Charles Keller, J. C. McNish and Frank Brown.

When Players Study Roles

"There is no arbitrary method of studying character expression," according to Rupert Julian, the director-star, and advances as argument the fact that each actor sees a character in a different light, and therefore, no hard and fast rule of study can be prescribed. "If an actor has intelligence, the first thing he will do when receiving a script is to get off by himself, read the part and then visualize it in its entirety. "Of course, before he has done anything else, he must have read the entire plot, the script, from beginning to end, so that he knows definitely just what happens in the cinema-drama. He will consider each scene separately, note just how the scenes dove-tail into each other, how they add and add to the plot till the climax is reached. He will criticize the entire story, tear down and build up, strike out the weak points and strengthen the theme as much as possible. "Then he will have a consultation with his director. The director and the actor will consider the production together. They will read it, criticize, and correct the production as much as possible. Then the reading of the plot to the entire cast will occur. This also will aid the star in making an estimate of his part in the play. He will have the benefit of the opinions of his support. He will see his role from new angles and consequently he will again improve his personal interpretation. "But above everything he must have brains, a swift intelligence, a mind that visualizes each story he reads, pictures it on the wall before him. "To be successful the actor must be absolute master of himself, able to think as the character he portrays thinks in the play; he must have not merely intelligence—but brilliance."

Heart Beats

By A. K. They touched Our hearts For Serbia— We helped And gave Relief. Our efforts then turned From that "worthy cause" to Stricken Armenians—who Needed our cash. And the thought Of their poverty Opened the spring Of our generosity. We then were told To gather our gold For the fatherless Kiddies of France So we worked our hardest And worked our friends For these poor little Kidds overseas. Flu-stricken Poles Have stirred our souls And tears rained Down our cheeks. But our tears are gone And our eyes are dry And our hearts beat An even tune. Our emotions Are stilled— We are dumb to the cries When they come From over the foam— We know of course That our hearts Are hard And we're soulless Sinners And stingy wretches And yet We feel That if some kind soul Would start a drive For our own little Kiddies We could Sigh And we'd Try To shed a real tear Just to wake folks up To what we could do For these poor little Kiddies at home. Some Spanish Recipes

By Marie Walcamp. Cooking is my hobby. It's hardly correct to say that I'd rather cook than eat, because unlike many cooks, eating my own cooking is part of the pleasure I get from the cooking itself. That isn't as complicated as it sounds. Try it again—slowly. Anyway, I like to cook, and I like to eat what I cook. My specialty is Spanish dishes, such as California is famous for, and here are some of my recipes that may be of interest: Spanish Rice: Fry rice in butter until it is a light brown. Add chopped onions and allow to brown with the rice. Cover with stewed tomatoes, a touch of garlic, two red hot peppers, and cover. Let steam until rice is thoroughly cooked. Stuffed Spanish Cabbage: Take a large, solid cabbage. Take out center. Cook brains, chopped with

onions, garlic and seasoning, and stuff the center. Wrap in the outside leaves, tie with string and boil. Spanish Pickles: Take one peck of green tomatoes, thinly sliced and four onions sliced. Sprinkle in alternate layers with one cup of salt and let stand overnight. Drain, put in a preserving kettle, add 1/2 ounce of cloves, 1/2 ounce allspice berries, 1/2 ounce peppercorn, 1/2 cup brown mustard seed, 1 pound brown sugar, 4 green peppers finely chopped. Use enough vinegar to cover, heat gradually to boiling point and cook one-half hour. Menu. Fruit Cocktail in Orange Cups. Pressed Chicken. Potato Puffs. Corn a la Southern. Hot Rolls. Jelly. Head Lettuce Salad. Thousand Island Dressing. Orange Charlotte. Frosted Sponge Cakes. Coffee.

"ORIENT Coal saves me dollars every winter. Every time I put on coal, I use two shovels-full less than before. One, because Orient gives that much more heat than other coal.
