WANTED

Locate in Their

Vicinity

A large corporation, favorably known internationally, doing a large unit specialty business, having connections in most every important city and country, finds it necessary to largely increase its output. Present location is absolutely inadequate and the vicinity not conducive to co-operation; therefore, it is desired that a new location be considered, and to this end authoritative correspondence is invited from such communities in the central west that may be interested.

The annual payroll has been and is over \$670,000, and will be correspond-ingly increased by the increase in pro-duction

Housing of employes one of the important factors, and same should be adequate for at least 600 families.

Will require ten acres of land and \$1,000,000 for the proposed plant and expense of moving

Reply should be made as early as possible, giving plat of town where pro-posed plant could be located; also, the following information:

FINANCIAL

New York, May 8.—Exceeding in activity any previous session of the year, foday's stock market duplicated in its chief characteristics the broad and highly speculative movements of the past few weeks, but selling for profits was more insistent, many gain being materially shaded or altogether cancelled later.

The most important development of the day, abandonment of the stabiliation of steel prices, was somewhat obscured by the violent fluctuations in oils, shippings and other favorites which have contributed more than their quota to the markets of the past two months.

From the course of steel shares it was evident that financial and industrial interests aw no ground for apprehension in any open or free market for fabricated products, some of those issues selling at the year's highest quotations.

United States Steel rose 1% to 101%, it maximum since the passing of the extra common dividend, but forfeited half its gain. Independent steels and affillated issues reflected greater firmness and many equipments dependent upon the steel market were higher.

One branch of the stock list which made no direct response to new conditions in the steel trade was the rails, changes in that division, tending downward, so far as they manifested any material alternation. Secondary rails were heavy, presumably on profit taking.

Texas company again featured the cils at a further advance of 31% points to 293, a total of 54 points since last week only a small part of its gain being lost at the end. Royal Dutch Shell of New York, Mexican Petroleum, Pan-American Petroleum, Pan-American Petroleum, Pan-American Petroleum, American Woolen, United Fruit and Atlantic Gulf were 5 to 9 points higher at one time, but the latter closed unchanged. Sales amounted to 1,800,000 abares.

Bonds, notably secondary rails and forders aware strong with an easier tenders.
