The Dandy-lion

By MRS. FRANK J. HOEL.

Spring! The lion of the hour— To blush unseen? not his power. We oust him out in jealous haste, He is yellow—as mustard paste. But ever and anon he comes And multiplies like school boys' sums; We fain to him would say "good night," In our blue grass he has no right. The bold Dandy-lion.

Are Weak Nerves and Lack of Physical Strength Holding You Back in Life?

You Must Have Plenty of Iron in Your Blood if You Want the Power and Energy to Win, Says Physician

When you buck blindly against the relentless hand of Fate and constantly fail to overcome obstacles because worry, trials and care are sapping your vitality and keep you from the full enjoyment of home, social and business life—take Nuxated Iron and watch its strength-giving, up-building effect—it will increase the strength and endurance of weak, nervous run-down folks in two weeks' time in many instances.

THOUSANDS are held back in life for want of sufficient iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, Outdoor Dept., New York, and the Westchester County Hospital, in commenting on the relation of strong nerves and physical endurance to the attainment of success and power. "A weak body means weakened brain; weak nerve force means weakened will power, and like the race horse beaten by a more capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood. That irritable twitch that fit of despondency, that dizzy, fearful feeling—these are the sort of fitful nature gives to tired, listless folks when the blood is clamoring for strength-giving iron—more iron to restore the health by enriching the blood and creating thousands of new red blood cells.

In my opinion the greatest curse to the health and strength of American people of today is the alarming deficiency of iron in their blood. Iron is absolutely essential to enable you to transform the food you eat into muscular tissue and brain. It is through iron in the red coloring matter of the blood that life-sustaining oxygen enters the body. Without iron there is no strength, vitality and endurance to combat the wear and tear of a strenuous life. Lack of sufficient iron in the blood has ruined many a man's career and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life. Therefore, I strongly advise those who feel the need of a strength and blood builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to a physician, buy Nuxated Iron and see that this particular name (Nuxated Iron) appears on the package. If you have taken other iron products and failed to get results, remember that such preparations are an entirely different thing from Nuxated Iron, which has been used and strongly endorsed by many physicians formerly consulted with well-known Hospitals, and such men as former United States Senator and Vice-Presidential Nominee, Charles A. Towne, former member of congress, Judge Atkinson of the United States Court of Claims at Washington, and others.

You can tell the men and women with plenty of iron in their blood. They are strong, healthy people brimming over with energy, vitality and the force that wins. William R. Kerr, said: "As Health Commissioner of the City of Chicago, I was importuned many times to recommend different medicines, mineral waters, etc. Never yet have I gone on record as favoring any particular remedy. But, in the case of Nuxated Iron, I feel an exception should be made to the rule. From my own experience with it, I feel that it is such a valuable remedy it ought to be used in every hospital and prescribed by every physician in this country, and if my endorsement shall induce anemic, nervous, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it." Dr. Schuzler C. Jacques, formerly Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or
