If I Were Pan

By IVAN SWIFT

Deep in the wood across the way, I dreamed that I was Pan today, And tuned me joyous pipes to play, And nymphs came out to me. And nymphs grace three— The world was Arcady! For I was Pan and this was spring!

I played the part of Pan today And laughed at mortals on the way, But no man heard and none would stay. Their cars were sorely dull, And sad their eyes and full Of pelf and pride and mull— And spring to them is never spring!

I know that I was Pan a day, But would that I like his eyes of May, To hear and feel and see!— Pipe tunes to birds and bee And set the world's heart free With laughter, love and light of spring! I would if I were Pan. —From "The Blue Crane."

Woman's Land Army Course Will Turn to Gardening Instead of Farming.

The statement that a farmer never knows when he is going to need help till the day after, is being borne out by the calls now being made on the offices of the Woman's Land Army, District of Columbia division, of the Department of Labor.

The policy of the local branch of the Woman's Land Army is to refrain from seeking openings for farmerettes, preferring to give such opportunities to the returning soldiers. But with the garden season well open, and city people turning their attention to their country homes, the death of men willing to plow and plant is keenly felt, and insistent calls are pouring into the 1410 Pennsylvania avenue office, some for immediate help and others

Society Waitresses Gather Large Tips From Their Friends

Left to right: Miss Regina Connell, Miss Menie Davis, Mrs. Francis Brogan and Mrs. John Fuller Austin.

The Associated Charities are richer by many dollars because of the beauty, youth and popularity of some of the society waitresses who are welcoming their friends at the Maytime luncheon on the top floor of Orchard & Wilhelms. Mrs. Francis

Brogan, up to date, has received \$57 in tips. Miss Menie Davis has received \$15 and Miss Regina Connell has received \$10. Mrs. John Fuller Austin on her first day at the lunch room, her first table and first tip amounted to \$10. The girls

and matrons are working hard and enjoying the change (?). Governor and Mrs. McKelvie were entertained at luncheon Saturday at the May-time tea room by Mr. Ward Burgess and Mr. A. C. Smith. Miss Menie Davis served the guests and turned in \$20 tip from that table.

asking to be supplied with helpers later in the season.

To meet these emergency calls with trained workers, a training field and commercial garden is being developed where women from offices and schools can work evenings and Saturday afternoons. A 10-acre tract on Blair road is now being plowed and prepared for immediate planting.

The peace-time program of the Woman's Land Army of America especially features the development of rural community centers and co-operative work among men and women.

Real Wonder-Worker For Wrinkled Faces

Those who have tried all sorts of so-called "wrinkle removers" in a vain effort to lose those unwelcome traces of age, illness or worry, can scarcely find words to express their delight with the wonderful xaxolite formula, once they have given it a trial. The success of this method is due not alone to its marvelous effectiveness—upon the deepest lines and crow's-feet, as well as upon the very fine ones—but also to its surprisingly quick action and its entire harmlessness. Its simplicity is another commendable feature for one need only dissolve an ounce of powdered xaxolite in a half pint of water and bathe the face in this solution. At once a remarkable transformation is beheld.

It is not only the effect on wrinkles and creases that is so noticeable, but facial contour is remarkably improved and the face looks much younger. One should be sure to ask the druggist for the powdered xaxolite. The lotion, being so refreshing, is particularly grateful to tired faces.—Ad.

Wrinkles On And Off The Stage

The Way Used By Those Who Know How to Accomplish It With Remarkable and Quick Success. You Can Look Young at 50. Here's a Hair Secret, Too.

buy ready-made for the same price. Try it. MISS PEPPERY—Blackheads can be very quickly eradicated, and in a very simple way. The use of tonics and stimulating the face are of little value. The way to get rid of them in a few minutes is this: Get some nioxine for about fifty cents at the drug store, sprinkle some on a wet cloth and rub the blackheads with it. Then look in your mirror and you will be astonished.

By Valaska Suratt

It is indeed remarkable how short a time it requires to bring the skin back to a youthful plumpness and vigor when the proper method is employed. Although the method mentioned here is very economical, it is not for that reason that I suggest it, but it is because of its remarkable results. These wrinkle removing results can be secured when you prepare this simple formula yourself. Its richness is then unquestioned. By mixing a tablespoonful of glycerine and the contents of a two-ounce package of eptol in a half pint of water you obtain the satiny cream necessary. By liberal use of this you will find that the skin will become more refined in texture, and crow's-feet and wrinkles, large and small, will very quickly begin to disappear. The eptol can be obtained at any drug store for fifty cents. This is a remarkable opportunity. Grasp it.

MRS. SPOTS—Mudiness and freckles can very quickly be removed by the use of a very rich cream which you should make yourself. It can be done in a few moments! From your drugstore get a one-ounce package of zintone and mix contents with two tablespoonfuls of glycerine in a pint of water. In a very few days you will see the difference in your complexion, and you will lay aside many of the things you have been using heretofore in order to produce the same result. You should not be selfish and keep this secret to yourself, but tell it to your friends, and they will appreciate the suggestion.

MRS. W. F.—I wanted a face powder that would blend beautifully with the skin and be extraordinarily fine, so I had my own face powder made up. Valaska Suratt's Face Powder is just what I need. It is from your drugstore in any of the tints for fifty cents.

PUT OUT—When your hair is wet, it becomes soaked like a piece of cloth. This is because hair absorbs liquids easily. Therefore when you apply to the hair any substance which will actually force the hair roots to start up a vigorous growth you very soon can notice the tremendous difference in its increased length and vigor. The hair root developer given here acts the same way. It has been demonstrated to have a very remarkable effect in forcing hair to grow luxuriantly and to fill out bald spots quickly. With a half-pint of water and half a pint of bay rum mix the contents of a one-ounce package of beta-quinol, which can be obtained for fifty cents. This makes a real hair grower, and in larger quantity than you can afford to use.

HIRSUTE—There's no excuse for that redness and irritation in removing superfluous hairs. It is just as easy to remove them perfectly and without any trouble whatever as using your face lotion. This is done by moistening the hairs with a little sulfo solution. This dissolves away the hair almost magically and can be wiped off with a swish of the finger, leaving the skin as smooth and white as before. It does not irritate or powder. This sulfo solution is already mixed, and ready to use. It costs about one dollar at any drug store.

MISS G. G. J.—That armpit misery from perspiration can be at once relieved and all odors at the same time removed by applying some hydrosol talc, which can be obtained at any drug store for fifty cents.—Adv.
