

# KANSAS CITY MEN TO APPEAR HERE IN LIQUOR CASE

Men Were Indicted With Omahans for Alleged Conspiracy to Violate the Amendment.

Three Kansas City men will be brought to Omaha for trial in federal court on charges of conspiring to violate the Reed amendment by transporting liquor from Missouri to Nebraska.

Removal orders from Kansas City to Nebraska against them were issued at Kansas City yesterday by Harry L. Arnold, United States commissioner. The men are: Oscar and Nathan Rieger, liquor dealers at Kansas City, and Charles A. McFadden, a transfer driver of the same city.

**Indicted Last Week.**  
They were indicted by the federal grand jury in session last week in the same conspiracy case in which Howard Goulding, Leroy Pegau and Earl Buck, Omahans, were indicted. Two other Omaha men, Aaron Loewy, alias Harris, and Sam Zieg-

man, were also indicted in the same case. It is alleged that Loewy and Ziegman bought whiskey from the Rieger Brothers in Kansas City and transported it to Omaha in large quantities. McFadden, it is charged, hauled the liquor to the train for transportation to Omaha. The Rieger brothers are sons of Alexander Rieger, president of the Merchants bank, and wholesale liquor dealer at 1529 Genessee street, Kansas City. Bonds guaranteeing the appearance of the men at Omaha were fixed by Commissioner Arnold at \$5,000 each. They were furnished by Alexander Rieger, the father.

Pegau, Buck and Goulding of Omaha, have also given bonds for their appearance at the trial of the case.

**Novel Divorce Plea**  
Mansfield, O.—For originality of divorce pleas Jennie Davis gets the medal in the Richland county court of domestic relations. After reciting that she has to work to pay the rent and charging her husband, Will, of being a poor provider, she alleges that she is entitled to divorce because she has to pay her own street carfare to and from her work.

**Tax on Artificial Dog**  
Wheeling, W. Va.—Squire A. A. Minder has decided that the law in Wheeling does not discriminate between natural and artificial dogs, and James Selers, a music dealer, was ordered to purchase a tag and place it on the neck of an artificial dog that he has standing in his window

# Methodists to Begin Big Financial Drive Today

(By International News Service.)

New York, May 17.—With their goal \$140,000,000 for human betterment, the greatest amount any denomination ever attempted to raise in the history of the world, Methodist Episcopal churches throughout the United States will begin tomorrow a spectacular one-week intensive financial drive.

They are trying to achieve the financial objects of their Missionary Centenary by employing all the methods of a Liberty Loan campaign—newspaper advertising and publicity, bill boards, special pamphlets, dinners and the rivalry between localities and individual churches, each striving to show an over-subscription.

The country has been divided and subdivided into areas, conferences, districts and sub-districts and the individual churches are also organized into several units. To each division, down to the individual churches, a definite quota has been assigned.

The drive is bound to be a signal success is the deduction drawn by leaders at Centenary headquarters here from a flood of letters and telegrams showing about two thousand churches already have exceeded their allotment and are pushing on for 100 per cent over-subscription. Teams of workers carefully or-

ganized and drilled by C. S. Ward, campaign manager for many recent war fund activities, will present the Centenary message to every member of the church next week. In each city the teams will meet together once a day for luncheon or dinner, exchange reports and get inspiration from speeches and music.

The movement is founded on the belief that the world today is at one of the crucial points of its history, and that the war has awakened mankind, but left it confused and likely to follow false prophets, and that a remarkable opportunity for the play of either good or evil forces is open in every land. In this crisis the leaders of the movement declare Christianity should take a strong stand and make unusual efforts to supply the guidance.

But the work to be undertaken with the Centenary fund will be largely of a most practical character. Among the multitude of enterprises decided upon are the adoption of twelve French towns on the plateau-Thierry battlefield for reconstruction, a series of recreation centers like the Y. M. C. A. hubs but of a more permanent nature, in war-torn France and Italy, hospitals for the cannibal tribes in Africa and Mohammedans of Malaysia, a large agricultural station to teach American methods of farming in southern Italy and an even larger institution of the same character in Chile; com-

munity churches in many American cities and an intensification of all the activities to improve the tone of American life, so as to make the United States the "model Christian nation."

An interesting feature of the drive is the attempt to enlist one million Methodists as titheers, or persons who promise to give one-tenth of their income to help their fellow men. So far, well over 125,000 men, women and young folks have signed this pledge and the gold cards have poured into the Centenary offices here so fast that the tabulation is far behind.

Fifty-three thousand young men and women are being recruited from colleges and schools. This army corps will be especially trained to serve in the enterprises of the church as enlarged by the Centenary. On the intelligence and personality of the leaders developed, according to the heads of the Centenary, will depend the success of the movement as much as on the amount of money raised.

## Name Whole Town for Marines Is Opinion Of Young Devil Dog

Brest, France, May 17.—He was a United States marine, just arrived in France as a relief for one of the men who had been discharged—upon condition of relief. He did not know French, and he wasn't aware of the fact that everything in a seacoast town like Brest is named after the sea, which, of course, is "demarine." Therefore, when he walked along

the streets reading the signs his eyes began to open wider and wider. Here was the Brasserie de la Marine, here the Patisserie de la Marine, the Cafe de la Marine and everything else that possibly could carry the affix "de la Marine." Long

the "Devil Dog" looked. Then he scratched his head. "Gosh!" he murmured. "I always knew the marines were good, but I never had any idea they'd make such a hit as this. By golly, they've named the whole darned town after 'em!"

**Delegates Arrive.**  
Paris, May 17.—The American delegation representing Irish societies in the United States reached Paris from England last evening. So far as can be learned the delegation has no definite appointment to see Premier Lloyd George.

## Bowen's Value-Giving Furniture Store

# Bowen Furniture

adds a quiet elegance to the home and makes living worth while. Home comforts to a great degree depend upon comfortable Furniture, whether it be for in-door or out-door use. You will find comfortable Furniture of charm in great displays throughout the Bowen store.

Even though Bowen prices are very moderate and you were in a position to pay considerable more than this store asks, we doubt very much if you would be able to find Furniture that would give you the general satisfaction—and such a liberal measure of Quality as that you see displayed on the many floors of the Greater Bowen Value-Giving Store.

# REO

With Electric Starter and Lights, and on Pneumatic Tires This Reo "Speed Wagon" was the Forerunner of its Type

IN 1915 WHEN this Reo "Speed Wagon" was first introduced, those features—electric starter, electric lights and pneumatic tires—constituted a liability.

TODAY, THEY ARE its greatest asset.

THEN, REO DEALERS said that the one "sales resistance" was the reluctance of buyers to "experiment with pneumatics on a truck."

NOW, THOSE SAME dealers say that it is mainly because of these features that this Reo enjoys such a tremendous popularity and demand.

THEN, THERE WERE only a few Reo "Speed Wagons" in hands of a few daring owners.

NOW, MORE THAN 20,000 in hands of the most conservative and critical class of customers.

THEN, THERE WAS a fear of "punctures and blow-outs."

NOW, THOSE bugbears are forgotten in the light of the great proven efficiency and economy of this Reo.

THEN, EVEN the tire makers were skeptical of this Reo innovation.

NOW, TIRE MAKERS without exception, advocate pneumatics for trucks not only of this type, but up to five tons and over.

THEN, THE AVERAGE buyer considered an electric starter a non-essential and electric lights superfluous.

NOW, HE WOULD as soon buy a "street starting" automobile with kerosene lamps, as a motor truck of that obsolete type.

THEN, ONLY THE REO engineers appreciated the superiority—the greater efficiency, speed, economy and lower upkeep—of a truck mounted on pneumatics.

NOW, RIVAL ENGINEERS are copying this Reo as closely as they can.

THEN, ONLY DRIVERS knew the saving of time and fuel and motor wear effected by the electric starter.

NOW, THE OWNER knows even better—through his cost accountant.

NOR NEED WE NOW show how the working day is lengthened and the radius increased by the electric lighting system—for that, too, is patent.

AGAIN, IS REO "conservative progressiveness" justified.

AGAIN, IS THE LEADERSHIP of Reo shown—and by imitation, that sincerest form of flattery—is the leadership of Reo design and the soundness of Reo engineering proven.
