SCHOOL BOARD PLANS ANOTHER BOND ISSUE

Two Million or More Dollars to Be Asked This Fall for North High and Junior High Schools.

The Board of Education is considering the submission of another bond issue at the primary election in September, or at the general election in November, probably the former. The proposition will be for \$2,000,000 or \$2,500,000. The building program will include a north side high school and a series of junior high schools.

Supt. J. H. Beveridge stated that

there is a real need for a north side high school and junior high schools. He told the board that he is working on a revision of the physical needs of the school system and will have his report ready for consideration soon.

The North Omaha Community club submitted to the board a written demand for a new Saratoga school and a north high school. The board announced that members of this club will be given a hearing next Friday afternoon at a com-

More Bonds Coming.

"The people of this community may just as well begin to understand that this bond proposition is said Chairman Arthur Wells of the teachers' committee. Superintendent Beveridge stated that a building program to take care of the school district expectancy for the next 15 years would require an expenditure of \$5,000,000, but it is not believed that the board will ask for this amount at one time. Most of the members favor asking for \$2,500,000 this fall.

The proposed junior high schools will include Seventh, Eighth and In the Methodist campaign for Ninth grades. Instruction will embrace modified manual training, commercial branches, household arts and academic courses. The prochurches to report. cost about \$1,000,000, and the junior high schools are estimated at \$350,

Two More Playgrounds. The board granted the use of Mason and Train school playgrounds for supervised play centers this season, under the direction of the de partment of recreation, conducted in connection with the park depart

City Commissioner Falconer and Recreation Supt. J. J. Isaacson urged closer co-operation between the school and the department.

These school playgrounds will be maintained the same as the parksupervised playgrounds, and will be open during the summer season from 10 in the morning until 9 o'clock at night, with supervisors in charge.

Will Not Buy Motorcycles. The board received from Chief of Police Eberstein a communication in which the chief stated that his men have been careless or unlucky had ordered them to buy their own equipment. Two have complied. He asked the board to buy some motor-cycles. Attorney Woodland ad-vised the board that it can not le-street car. He was charged with

lected in fines from the arrests by \$25 and costs. motorcycle officers goes into the school district fund. Attorney Woodland also advised the board that it is not required by democracy. I've served democracy law to advance the court costs in all my life, and if I get in jail for it connection with the prosecution of now, I'm sure through with democ-

appealed police court cases in dis- racy trict court; that it is the duty of the county to bear this expense.

One of the greatest improvements in modern dentistry is re-movable bridge work which is being used by the Bailey Dental

Company. Before this remarkable invention was made a few remaining teeth were not of much value to the patient, but now with the use of this attachment the teeth may be held firmly in place so that the gums take all the strain of chewing, the natural teeth themselves holding them firmly in position. Even though there may be no back teeth, it is held in place and the person is very comfortable while

talking or chewing. The Bailey Removable bridge work is especially sanitary and this of course is a very important fact to be considered, as many of the present-day ailments can be traced to unsanitary mouths.
