WILSON PLEASED THINK TERM **NEARING END**

President Expresses Thoughts About Position at Banquet In Honor of Brazilian Executive.

Paris, May 27 .- "It is very delightful, for one thing, if I may say so, to know that my presidency is not ahead of me and that his presiis ahead of him," said Presilent Wilson in referring to Dr. Epitacio Pessoa, president-elect of Brazil, at the dinner given Dr. Pessoa by the Pan-American peace delegation last night.

The konor has been accorded me," President Wilson said in beginning his speech, "of making the first speech tonight, and I am very glad to avail myself of that privilege. I want to say that I feel very much at home in this company, though after all I suppose no one of us feels thoroughly at home ex-We all feel in a very real sense that we have a common home because we live in the atmosphere of he same conceptions, and I think with the same political ambitions and principles.

Glad Term About Over.

"I am particularly glad to have the opportunity of paying my respects to Mr. Pessoa. It is very delightful for one thing, if I may say so, to know that my presidency is not ahead of me and that his presidency is ahead of him. I wish him every happiness and every success with the greatest earnestness and yet I cannot, if I may judge by my own experience, expect for him a very great exhilaration in the performance of the duties of his office, because, after ill, to be the head of an American state is a task of unrelieved re-

"I suppose no more delicate task given any man than to interpret the feelings and purposes of a great people. I know that if I may speak or myself, the chief anxiety I have nad has been to be the true interpreter of a national spirit, expressing to private and peculiar views, but rying to express the general spirit

Closer Relationship Urged.

"I will recall here to some of you in effort that I myself made some years ago, soon after I assumed the presidency of the United States, in arging that other states of America unite with the United States in doing something which very closely resembled the formation of the present league of nations. I was ambitious have the Americans do the thing first and set the example to the world of what we are now about to realize. I had a double object in it, not only my pride that the Americas should set the example and show the genuineness of their principles, but that the United States should have a new relation to the other Americas.
"The United States upon a fa-

mous occasion warned the govern- street. ments of Europe that it would reit as an unfriendly act if they tried to overturn free institutions in the western hemisphere and to substil te their own systems of government, which at that time were Eighteenth street. inimical to those of free institutions; but while the United States thus undertook of its own motion to be the champion of America against such aggression from Europe, it did not give any conclusive assurance that it would never itself be the aggressor. What I wanted to do in the proposals to which I have just referred was to offer to the other American states our own bond that they were safe against us and any illicit ambitious we might entertain, as well as safe, so far as the power of the United States could make them safe, against other nations."

Allies Will Provide Omsk **Government With Supplies**

Paris, May 27.—(By the Associated Press.)—The council of four and Japan have offered Admiral Kolchak, head of the Omsk government, money and supplies to maintain the all-Russian government, provided he promises to hold elections for a constituent assembly as soon as he reaches Moscow, or, if conditions are too disturbed to hold South Seventeenth street. elections, to reconvoke the former constituent assembly.

Why We Charge to Move Your Telephone

In less than three months after being installed one telephone in every four is moved or changed

At the end of six months 66 telephones out of every 100 have been taken out, moved or changed in some way.

If we did not charge each subscriber for installing his service or moving his telephone, it would be necessary to distribute the expense among all the subscribers, some of whom retain their telephones much longer than others.

For installing a telephone instrument the charge is \$3.50.

For changing the number of a telephone already installed or the name of the person having the telephone, the charge is \$1.50.

For moving a telephone instrument from one place to another on the same premises the charge is \$3.00.
