Sheep and Lambs—There was a moderate run of sheep here today. 29 loads estimated at 7,000 head. The early hour was very dull in the sheep harn and it was close to the noon hour before anything had moved. Not enough had been sold by that time to really establish prices, but the market was weak and unevenly lower from all appearances. First sales 15 to 35c lower. No. Av. Pr. No. Av. THROUGH panics as well as periods of prosperity we have served investors successfully for the past twentyfive years by investing their funds safely and profitably in first mortgages secured by improved farms or city residences. We have served savings banks, estates and insurance companies as well as hundreds of smaller investors to their complete satisfaction. Lougee mortgages are usually obtainable in amounts of \$500 and upward. They yield 51% to 6% net to the investor.

New York Coffee.

New York, June 2.—The market for coffee futures was rather nervous and frequent today, with a moderate volume of business. Steady milrels prices in Santos encouraged some scattering support and covering, but the advance brought out realizing enough to cause reactions. The opening was 8 to 10 points higher, and the more active positions sold 14 to 25 points above Thursday's closing prices during the early afternoon, with September touching 13.13c and December 18.65c. A good part of these gains were lost later, however, with the close 13 points lower on August, but generally 1 to 4 points net higher. July, 19.25c; September, 18.20c; October, 18.76c; December, 18.40c; January, 18.30c; March, 18.20c; May, 18.12c. Spot, quiet; Rio 7s. 19%c, nominal; Santos 4s, 24½c.

Regional Director **Bush Predicts Bumper** Wheat Crop This Year

Regional Director Bush of the southwestern region is out with a letter in which he anticipates a 1,000,000,000 bushel wheat crop this year. Last year the crop aggregated 900,000,000 and taking present prospects as the basis for making his estimate, Mr. Bush is of the opinion that the yield this year will be fully 100,000,000 bushels greater than last.

Anticipating the enormous crop of wheat, Mr. Bush is urging upon tarmers in Nebraska and other states the importance of providing storage facilities for their grain. He calls attention to the fact that there is no necessity for rushing the wheat to the market as soon as threshing is finished. The government has fixed the maximum price to be paid for the 1919 crop and consequently there will be little, if any fluctuation. The only possibility of any increase over the set price will be in instances where millers will be forced to buy wheat to take care of their immediate wants. He is of the opinion that these instances will be rare. debate on the league of nations.

Main Plant to Omaha Soon

For the reason that the Omalia vholesale market is absorbing practically the entire output of the Omaha and Duluth brush factories, A R. Wiens, of the Omaha Wienbrush factory, is making arrange-ments to move the parent plant of the concern, now located at Duluth Minn., to this city.

Two years ago Mr. Wiens established the Omaha plant here, locating at Forty-fourth street and the belt line. The business grew to such proportions that the company was compelled to purchase a building and three lots at Twenty-eighth street and the belt line. The building was enlarged and improved and two extra lots adjoining have been since added so as to give additional space for enlargement.
