Convicts Testify In Trial of Alleged Automobile Thief

Three convicts from Nebraska state penitentiary testified in police court yesterday in case of Paul Sey-more, alias Speed, of Omaha, belonging to Mrs. Frances S. Carroll, 3614 South Twenty-fourth street, May 11, last. Seymore

pleaded not guilty.

Looking at Truck Tires from the Ground Up

A worm's eye view of a Solid Rubber Truck Tire sustaining a load of a thousand pounds or more, rolling over average roadways would show more distortion and distention of the rubber than the average truck owner thinks possible.

In a great measure, all rubber looks and acts alike until you bend. pull and flex it out of shape, and what happens then is just this:

New, vibrant, properly toughened rubber will "come back," return to its normal shape; heavily loaded, logy, inert rubber won't. Result-a lumping condition in Tires that invites undue wear and tear.

The even wear of GOODRICH DE LUXE SOLID RUBBER TRUCK TIRES is proverbial. They rarely, if ever show any tendency to nick, chip off or disintegrate generally.
