Strangler Lewis to Show His Head Lock at Auditorium June 11

The latest benedict of the wrestling world, E. "Strangler" Lewis, who was recently married to a lady doctor and is the inventor of the new "head-lock" hold will display his grip in Omaha on the night of June 11, in a match with Jim Lindos, the Greek champion of the world.

After some squabbling with various men, in order to secure an opponent for Lewis in Omaha, Promoter Jack Lewis finally came to terms with the Greek wrestler and the match was arranged for the Omaha auditorium on the night of June 11. Lindos was eager for a chance at Lewis and as soon as the stipulation that the men must go to a finish and the winner must gain two falls. He would not stand for one of those, now famous one fall matches.

With this bout closed, Omaha mat fans can be assured of at least one good match on that evening and Jack Lewis says he is after some more for the preliminary and semi-weekly that will make the show an all-star card, better, even, than those that have been billed in Omaha before.

The Strangler is busy training and practicing his head-lock on the dummy dummy invented by his manager, Billy Sandow, for this purpose. No wrestling partners could be found to work with Lewis when he attempted the head-lock, so Sandow invented a wooden dummy, shaped like a head with a set of springs in it to give it some resistance and the big wrestler uses this in practice instead of men when trying the head grip.

WILLIAMS WORKS CHAMP'S FIRST SIX ROUNDS AT TOLEDO WORKOUT

Fort Omaha Hut Surprises Fans. Boxes Two Men for Half Dozen Three-Minute Sessions; Looks to Be in Fine Condition.

The soldiers at Fort Omaha saw Soldier Johnny Lee work out in the Knights of Columbus hut on Monday afternoon and yesterday afternoon. His opponent, Harry Williams, did his training stunts before the fort boys. After seeing Harry work, opinions among them as to the winner were about evenly divided.

Willard Looks to Be in Fine Shape Already, Wind Good and Punches Are Snappy in His Boxing. Toledo, June 3.—Jess Willard began four weeks of intensive training today for his championship contest with Dempsey, July 4, and the 500 persons who watched him in his first public workout since leaving California, left his canvas-enclosed ring in astonishment over his apparently excellent condition.

There was little, if any, extra weight on his huge frame; his wind was good and his skin glowed with health. He settled down to his training grind good-naturedly, which indicated, according to experts, that he had been constantly training for several weeks. When Willard appeared in the ring it was noted that the rolls of fat he packed some months ago had been completely wiped out by hard exercise.

After tugging at the weights and doing some shadow boxing, the giant boxed three rounds with Jack Lavin, a veteran light-weight from Cleveland. Willard snapped over a left hook in the second round that sent Lavin reeling through the ropes. After the workout, Lavin, who also has boxed with Dempsey, said he was stung by the punch, although Willard "pulled" most of them.

Willard boxed with surprising skill and speed, blocking punches to his mid-section with his elbows and forearms and slipping his head away from dangerous blows to his chin. Sergeant Walter Monahan, who trained Willard for his championship match with Jack Johnson at Havana, arrived in camp tonight and with Jack Hempel, the coast heavyweight, will work with the champion tomorrow.

True, the music of his organ ain't the best that could be played, And it's full of sounds that oughtn't to be in it—I'm afraid. But the kiddies here enjoy it from the time its first note starts 'Cause they've got the joy of livin' sunk 'way deep into their hearts. Now, us grown folks, too, can learn the way to stand for life's discord If we'll only keep the joyousness of livin' in us stored. An' our pipes will taste the sweeter an' the world will seem true blue If we live our lives like VELVET, natural, friendly, pure—all through. VELVET TOBACCO. Here's why VELVET is friendly! Those things you like about VELVET—its mildness, fine taste, pleasing fragrance—are due entirely to Nature. Choice, silky keeping of Kentucky Burley are put away in hogsheads for two years. No interference with Nature; no hurry-up. It is this patient "aging in the wood" that makes VELVET friendly. Just try a pipelod of VELVET. It will tell you more than a page of print.
