English Woman Gets

D. S. C. for Service Washington, June 7.-One woman was included in the list of citations made public by the War department today as the basis for awards of the distinguished service cross. Miss Jane Jeffrey, an English women serving as an American Red Cross nurse, was cited for extraordinary bravery in action. While on duty in a hospital she was wounded by an exploding aerial bomb, but refused to leave her post "though suffering great pain; her devotion to the task of helping others was inspiring to

her associates." Col. Harry H. Howland of Pasadena, Cal., won the cross by captur-ing a German post with a "mixed detachment, partly non-combatants," which he had led through a heavy fog, far in advance of the American combat troops.

Other awards of the D. S. C. an-

nounced today included Sergt. Harry E. Hample, Watkins, la.

New York, June 7.—Outstanding feature in trading on the stock exchange this week was a one-day reaction which only temporarily interrupted the upward trend of prices that has been in progress during the past for or five months. After this relapse the advance was resumed with all its earlier vigor and many stocks, including United States Steel repeatedly advanced into new high ground.

Professional interests, momentarily taken aback when the rate on loans ascended on Tuesday to 11 per cent, a new high figure for the year, professed to helieve that the rise was not due to any endeavor to interfere with speculation but rather there was actual scarcity of funds because of requirements of money for other purposes, notably income tax and Victory loan payments.

After this period of acute weakness the rate receded to the figure which had been normal, six per cent, and by the end of the week, the losses which had been incurred during the liquidation were more than re-

week, the losses which had been incurred during the liquidation were more than re-covered.

Special influences adverse to certain stocks include Lehigh Valley's cut in divi-dend, the action of Gulf States Steel in passing its disbursement and opposition to the liquidation plans of International to the liquidation plans of International Mercantile Marine, while the government report on cotton reflected unfavorable conditions in this crop. Offsetting these factors, however, were indications of improved industrial conditions, resumption of gold imports from Canada, big railroad earnings and prospective extra and increased dividend together with a better copper price outlook.

Rates for bills on the allied and neutral countries varied considerably during the week with a rather sharp decline early in sterling.

New York Coffee.

New York Coffee.

New York, June 7.—Reports of firmer Brazilian markets led to considerable covering in the market for coffee futures here today and there was also some trade buying on the advance. The opening was 11 to 16 points higher, and the active months sold about 20 to 26 points above last night. Closing figures, with September touching 19.00 and December 18.50c, were at the best point of the day, showing a net advance of 24 to 28 points. Reports that banking interests in Brazil estimated the coming Santos crop at only 4.048,000 bags, including the carry-over of old crop coffee were a factor on the advance. Man Arrested for the Alleged Abuse of Two and Half-Year-Old Child

On the charge of abusing his child, 21/2 years old, George Hall, 3029 South Twenty-third street, was serving the "jitney" ice stations, as arrested after a hearing in juvenile court yesterday.

The baby's nose was scratched and part of one ear missing. Neighbors declared that Hall kept the child sitting in one position for two and a half hours and that he treated it cruelly in other ways. Mrs. Hall said the child fell. She

denied that her husband had abused the little one. Neighbors alleged that Mrs. Hall had complained to them of the harsh treatment accorded the child by the father.
