DOUGLAS COUNTY \$777,500 A YEAR

Open Campaign for \$3,000, 000 Paving Bond Issue for County at C. of C. Luncheon.

The opening gun of the campaign for the \$3,000,000 paving bonds to be voted on June 24 was fired yesterday before the Good Fellowship committee of the Chamber of Commerce by W. B. Cheek, prime mover for good roads and president of the Omaha Automobile club, and J. M. Gillan, manager of the in-dustrial bureau of the Chamber of Commerce. Mr. Cheek told of the safeguards with which the spending of the money will be sufrounded and gave a short history of the movement in Douglis county for good

"Donglas county will get 100 cents" return for every dollar spent," said Mr. Cheek.

"Already we have arranged for a check. We are consulting State En-Johnson, County Engineer Adams and government road engineers as, to the specifications of the paving to be put down. Contracts will be drawn in accordance with those specifications.

"Then we will have our own engineers, entirely apart from those furnished by the contractors, or the county, to see that these specifica-tions and contracts are carried out to the very letter. These special engineers will be on the job all day and all night and will see that the county gets full value for every cent expended."

Mr. Gillan presented some ex-

tremely practical figures on the value of paved roads to Omaha and

Douglas county. Through conservative fgures, Mr. Gillam showed that Douglas county will save \$547,500 per year in re-pairs to its automobiles with paved roads. On the transportation of live stock into the South Omaha market, he said, the farmers of the county will save \$20,000 per year by reason of paved roads. The upkeep of the 16,000 automobiles in Douglas county will amount to at least \$160,000 per year, he said. Fifty thousand dollars additional from tourists will be brought in each year because of paved roads. Altogether, Mr. Gillan told the committee, that his estimate, which he considered very conservative, showed a direct result and sav ing of \$777,500 annually to Omaha and Douglas county every year by having paved roads.
