Lincoln, Neb., June 11.-Governor McKelvie, in a proclamation issued Wednesday, urges all citizens of the state to observe June 14 as National Flag day by displaying the national colors from 9 o'clock in the morning until evening.

His proclamation follows:

It needs no encomium on my part to glorify the flag of our country for the reason that it is loved by all its friends and respected even by its enemies at home and abroad. During the past year our flag has been in the front ranks and has received a new baptism of fire on foreign soil, in the great war waged for the preservation of the principles which our country stands and has at all times been ready to defend. On the battlefields in France, on the ocean and in the air, in the hospitals and camps here and over there, our men and women have served and thousands have laid down their lives in defense of the Stars and Stripes.

For a number of years. June 14 has been recognized as Flag day by most of the states, and .hat it may more generally be celebrated this year, I make special mention of the day and request that it be observed by all the public institutions of the state, public and private schools, wherever in session, the churches and the private homes of the citizens, by the appropriate display of the national colors from 9 o'clock in the morning until evening on Saturday the 14th day of June. 1919.

Union Leaders Say First Day's Response to Call for Walkout Satisfactory; Companies Deny This.

Chicago, June 11.-Union leaders said the first day's response to the call for a nation-wide strike of commercial telegraph operators gave promise that the tie-up will be complete in three days, despite claims of company officials that the strike has failed.

Reports received by the Associated Press from many towns in various sections of the country indicate commercial telegraph business was not seriously interrupted in most districts.

A statement by President Carlton of the Western Union Telegraph company that only about 166 persons, 121 of them operators, and swered the strike call in Chicago' brought from S. J. Konenkamp, international president of the Com-mercial Telegraphers' Union of America, a remark that more than that number of Western Union employes in Chicago alone had joined the strike by noon Wednesday.

Says East Shows up Well. "Reports up to late Wednesday point to a 90 per cent response in the Postal Telegraph company service and a 70 per cent response from Western Union employes," said Konenkamp in a statement to the Associated Press. "The east has shown up surprisingly well, and in the southeast alone the number ephone workers have added to the strikers' numbers in Philadelphia, New Orleans, Columbia, S. C., and Brunswick, Ga.
