# STRIKE TO TIE UP

Walkout Called for Next Monday Has Full Moral Backing of Federation; Burleson Is Scored.

Atlantic City, N. J., June 12.—A strike designed to cripple the telephone systems of the country will begin Monday with the full moral support of the American Federation of Labor unless a satisfactory work-ing agreement is reached before that time between Postmaster General Burleson and the International Brotherhood of Electrical Workers. which number among its members the bulk of the union telephone operators in the United States.

By unanimous vote the recontion adopted a resolution giving its support to the strike and providing Samuel Gompers, president, uld appoint a committee to co perate with a committee of electrical workers, the joint committee to take up grievances with the postnce authorities at Washington in

the hope of averting the walkout.

Harsh Words for Burleson.

During the debate Postmaster General Burleson was termed a tyrannical official by delegates who thought any attempt to obtain "jus-tice" from the nostal tice" from the postal executive would be utterly futile. In this connection reference was made to a

lution accused Mr. Burleson during the debate of turning back operating control of the wire systems of the country as a means of "getting out from under."

G EORGE BEBAN is enter-tainment in himself in his per-sonal appearance in conjunc-tion with the showing of his picture "Hearts of Men" at the Rialto. Mr. Beban tells many amusing incidents that took place during the filming of "Hearts of Men"-for example, how all the scenes in which the Chinaman appears had to be taken over, for one day he had his hair all cut off, and you can imagine the laugh that would occur should they have shown one picture where the Chinaman is behind the big rock with a big head of hair, and the very next minute, when he came behind the rock, with all his hair shaved off. You see in picture making all the scenes are not taken the same day, or even possibly the same week, so the performers have to be very careful to wear just the same clothes they did when the other similar scenes were taken, or the audience, quick to notice the difference, is bound to laugh and spoil the effect of the picture.

#### Gloom at Bellevue College Replaced by Air of Excitement

Dr. Edgar P. Hill, recently ap-pointed secretary of the Pres-byterian college board of New York, at the invitation of Henry T. Clarke, president of the board of trustees of the college, will visit Omaha, Saturday, to reopen the case of Bellevue college. This move is due to the new situation caused by the action of the alumni at their annual business meeting Wednesday evening.

Funereal gloom has been superseded at Bellevue college by a state of breathless excitement. Weeping young women and long-faced young men have plunged into the fund raising campaign among the alumni, ex-students, and friends of the college with such enthusiasm that no time has been left for mourning. The hearty encouragement of the members of the executive committee to the action taken by the alumni and ex-students association has been the most favorable note of the situation. Financial arrangements probably will be consummated to-morrow which will place the college cut of debt.

### Ten Years Younger Than His Years

Doesn't it make you feel good—cause you to straighten up and feel "chesty" when someone guesses your age at ten years or so younger than you really are? You look into your mirror, smile with satisfaction and say to yourself:
"Well, he didn't make such
a bad guess, at that."

The point is: You're no older than your vitality.

If a man is strong, vigor-ous, mentally alert, fine and fit at 50 he has a better chance of living up to 80 than a man of 30 who is weak and run-down has of living up to 60. While none of us can stay the years nor stop time, we should all make an heroic effort to successfully resist the effects of time by ever keeping our of time by ever keeping our vitality at par.

When you sense a feeling of slowing down of your physical forces—when your stomach, liver, kidneys and other organs show signs of weakness—when you notice a lack of your old time "pep" and "punch"—in other words, when you feel your vitality is on the wane, you should com-
