**Pretty, Wavy, Curling Hair Without Hot Iron**

Let me tell you of a simple method which is a favorite of the belles of a certain exclusive social set. I'm sure you would like to know of it, because it will save your hair each a pretty good hassle and permit you to do away with the ruinous waving iron forever.

Just get from any druggist a few ounces of ordinary liquid silmerine, and at night apply a little with a clean tooth brush, drawing this down the full length of the hair. In the morning you will have a real surprise, the fascinating, fluffy, wavy effect will appear so natural, and there will be no greasy, sunny, sticky or other unwholesome traces of this harmful liquid. You will also find this a splendid dressing for the hair.—Mona Morrow in The Clubwoman.—Adv.
