

PLAN INCREASE OF NAVAL RADIO ACROSS PACIFIC

During Past Two Years Cable Has Been Supplemented for Transportation of All Messages.

San Francisco, June 14.—While naval radio communication across the Pacific during the last two years, supplementing the Commercial Pacific cable, has carried a greater volume of transpacific messages than ever before transmitted, plans have been approved that will increase this volume to five or six times the present capacity. Information concerning these proposed improvements revealed here, indicates that the fast-expanding demand for commercial communication facilities which have led to plans in Japan for a new transpacific cable, will be met by radio transmission and congestion will soon be a matter of the past.

High Speed Apparatus. Installation of automatic high speed sending and receiving apparatus at all high-power naval radio stations, and the opening of a second transpacific radio circuit are two of the main improvements that have been approved. "Vast strides in radio transmission have been made during the past two years, improvements, that, however, have been guarded as war secrets. When detailed reports are made available of the amount of communication handled, commercial and government, and complete assumption of transpacific communication by the naval radio during periods when the cable was rendered useless by breaks, the revelation of service will come as a surprise to those interested in transpacific communication. It has been learned here.

The use of subterranean antennae, used with excellent results on the Atlantic coast, was just recently added to the naval radio communication service in the Pacific. Instead of high aerials, the antennae is placed a few feet underground or in the water.

Plan New Circuit. The next important development will be the establishment of a second transpacific circuit to the north, from a high power station at Keyport, Wash., to St. Paul, Pribylov Islands; to Russian Island, Vladivostok; to the Marine station, Peking, and Cavities, and to the American radio stations. The Russian Island station at Vladivostok will be able to communicate in addition with Shanghai, a French station; Omsk, and other Siberian stations.

It is expected here that by July 1st, the northern transpacific naval radio circuit will be in operation. Radio communication, commercial and government, has been in operation regularly to the Orient for more than two years, and the only times there have been congestion were when cable trouble occurred and the unusually large amount of traffic regularly handled by the radio circuit was further loaded down by the volume normally carried by the cable.

Salvation Army Plans to Preserve Bar for Soldiers

Boston, June 14.—"The Salvation Army has had no new success. It has only done an old thing in an old way."

So spoke Commander Evangeline Booth in Boston discussing the war work done by the Salvation Army in France.

"The saloon goes," said she, "and in its place, put there by the Salvation Army, will come, all over the country, workingmen's clubs, where drinks and refreshments and reading and writing and music will comfort the tired man who needs comfort."

"We are negotiating for thousands of these places. We have bought up many of the old saloons that were in good condition. And, in managing them, not our scruples, not old prejudices, but the customs and habits of the workingmen are to be considered. If a man prefers to take his refreshment with a foot against the rail he will have a rail."

Powder Puff, Rouge And Liquor Are Used By Lincoln Student

Kansas City, Mo., June 14.—If whisky, powder puffs and rouge, are "legitimate" aids in securing a B. S. degree at the University of Nebraska at Lincoln, then O. J. Young, 19, who said he lived on the Kansas side, should receive his "sheepskin" marked "with special honors."

Young was arrested at the Kansas City, Kan., depot as he was about to start for Lincoln by Henry Hays, a law enforcement officer for the Attorney General of Kansas. Young said he would graduate in June. In his suit case was the following:

Twenty-three quarts of whisky. Much-used powder puff. Box of face powder. Half a jar of rouge. Pair of men's dancing pumps. In police court Young was asked by the judge: "What were you going to do with all that liquor?" "Drink it," replied Young. "You see, some of the other boys wanted some, too." "And who uses the powder and rouge?" questioned the court. "Oh, I do, Your Honor; one must keep himself presentable," said Young. "One hundred dollars fine, and I'll give you six months, too," said the court. So Young will have to postpone his graduation for a while.

Marriage License Issued To Mutes In Sign Language

Waukegan, Ill., June 14.—Hyman Bernstein, Salt Lake City, and Charlotte M. Taylor, Chicago, deaf and dumb couple, were married here. When they applied for a marriage license at the county court clerk coveted with his fingers until some of the digits threatened to become disjointed in eliciting the usual questions and answers. He finally got the information that Bernstein was 35 years of age and Miss Taylor 31. Then, under the kindly eye of a constable, they traversed to a justice of the peace, who, with the aid of his fingers, thumbs, pad and pencil and a few other accessories for transmitting intelligence, united the two in the holy bonds of matrimony.

Death Spares Court From Trying Boyhood Friend

Cleveland, O., June 14.—"Abated by death." The writing of these words while tears coursed from his eyes spared Judge Virgil J. Terrell the ordeal of sitting in judgment on his boyhood chum, Morris Darling, who "went wrong." Darling, who had a long criminal record finally was picked up in Cleveland as a pickpocket. He hanged himself the day before he was to have been arraigned before his friend of boyhood days.

TAKE HAIR OUT NOT OFF THE SKIN

Hair is bound to grow out coarse and stiff, when merely removed from the surface of the skin. The only common-sense way to remove hair which is so annoying is to use the original sanitary liquid, does this by absorption. Only genuine DeMiracle has a money-back guarantee in each package. As bottles contain 1 oz., 2 oz., 4 oz., 8 oz., 16 oz., 32 oz., or by mail from us in plain wrapper on receipt of price. FREE book mailed in plain sealed envelope on request. DeMiracle, 1234 St. and Park Ave., New York.

Simple Home Remedy for Wrinkled Faces

Thousands of the fair sex are spending fortunes in frantic effort to remove the signs of premature age from their faces. Such women willingly pay almost any amount of money for worthless wrinkle removers which do little or nothing. If they only knew it, the most effective remedy imaginable is a simple, harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered salicylic acid and half a pint of witch hazel at the drug store and mix the two. Apply this daily for a while as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed, and the face has a snug, firm feeling that is most pleasing.

TOBACCO or Snuff Habit CURED by harmless remedy. Guaranteed. Sent on trial. If it cures, costs nothing. If it fails, costs nothing. SUPERBA COMPANY, D-77, Baltimore, Md.
