

JUDGE ESTELLE SAYS WAR WAS ENDED TOO SOON

Tells Pioneers Kaiser Should Have Been Made to Sing the "Star Spangled Banner."

"The war has come to an end, but in my judgment the end should have come when the Kaiser was compelled to sing the 'Star Spangled Banner' until he was ready to be acknowledged that he liked it. In my judgment the war should have ended until the Kaiser had floated over Berlin."

Subject Worn Threadbare. Judge Estelle, a pioneer of 1871 in his introductory remarks informed the pioneers that talking of the pioneers of Omaha and Nebraska was pretty well worn threadbare and that in his judgment it was time "to let the past bury the past."

"In order to be an American," said the judge, "it is not necessary that a man or woman should have been born in America, for right here I could pick out a number of persons, who, though of foreign birth, are 100 per cent plus American in every sense that the word implies."

"These men to whom I refer came to America from foreign lands, took the oath of allegiance, and have ever since been good, red-blooded Americans, and really they are entitled to more credit than we who were born here and could not help being Americans."

Melting Pot of World. "We have taken great pride in calling the United States the melting pot of the world, and I am glad that it is, but we must see to it that it is not made the boiling pot of the world."

"It is our duty, as American citizens, to denounce those who are against our government by word or deed. I will go farther and say that any man, no matter what his standing may be, who is a traitor to the United States, or who maligns its institutions, or people, should be lined up against a stone wall and filled so full of lead that he would get to be awakened by the blowing of Gabriel's trumpet."

"I would welcome to the United States any man who has a desire to become an American, but I would not make any place here for one who carries the red flag or preaches bolshevism. These fellows I would take to New York, dump them in the bay and to them say, 'swim to it.'"

The judge scored the conscientious objectors, adding that the "man who says that they are the equal of our boys who went to war, is just an ordinary liar."

A. Thomas Sloan, a Nebraskan, who is temporarily living in Washington, where he is practicing law, was introduced as a "pioneer Nebraskan." Mr. Sloan said, "I am proud to be a pioneer, but I lay claim to only one of the original Americans, as well as to being one of the pioneers among the Nebraskans."

"Recounting some of his family history, Mr. Sloan asserted that his grandmother, the daughter of a white trader was born on the site of what is now the village of Calmar, 110 years ago. His grand uncle on his father's side and whose Indian name, translated into English, was Noise, was one of the Omaha Indians who signed the treaty, ceding to the whites the territory now included within the boundaries of Nebraska. Concluding, Mr. Sloan said, 'I am proud of my ancestry and my Americanism and am of the opinion that they will best measure up to the standard of requirements.'"

Propagandists Seek To Overthrow Regime Of Mexican Governor

Laredo, Tex., June 14.—According to information given out by an American business man just returned from a tour of various cities of Mexico, that country is now in a very perturbed state and there is much unrest manifested in such cities as Mexico City, Vera Cruz, Guadalajara, Queretaro and Torreon, where the revolutionary movement is gradually gaining ground.

Propagandists against the Carranza government are said to be working diligently to create sympathy for the revolutionary cause among federal troops, and the effect has been that there have been many defections from the Carranza army to that of Felix Diaz. It is said that secret meetings are being held in various portions of Mexico almost nightly, and under some clever camouflage the "junior" managers are to keep the Mexican government in ignorance of their clandestine workings. Felix Diaz, who has been unsatisfied ever since the overthrow of the Porfirio Diaz government by Madero, is still the acknowledged leader of the Mexican revolutionists, and he is said to be gaining converts to his cause by his public speeches. White Pancho Villa and his forces are menacing the northern portion of Mexico and terrorizing the inhabitants, the Diaz forces, operating in Central Mexico and even in the capital, it is said, are quietly spreading their propaganda and strengthening the revolutionary cause.

Danish Vegetarian Says Too Many Pigs Lost War for Germany

London, June 14.—Ludendorff maintains it was the revolutionary spirit of the German soldiers that caused Germany's defeat. Admiral Beatty says it was the British navy. General Pershing thinks it was the American army, while armchair strategists declare it was Foch's great offensive.

But, really Germany was defeated because it had too many pigs, says Dr. M. Hindhe, the distinguished Danish vegetarian. The German pig betrayed the fatherland and contributed more to the downfall of Germany than the allies' blockade.

At the outbreak of war, the food situation was more serious in Denmark than in Germany. Denmark, however, reduced the number of her pigs and cattle, thereby restricting the consumption of cereals in the country.

Germany, on the other hand, instead of reducing the number of her pigs and cattle, forbade the slaughtering of cattle under seven years old, and of pigs less than 60 kilos in weight. No restrictions were put on feeding them with cereals.

By the spring of 1919 there was scarcely a pig to be seen in Germany. Go Germany starved while Denmark thrived, and the pigs that were intended to save the fatherland ate the food so urgently needed by her population.

That is why Germany lost the war.

Railroad Employes' Strike Does Not Impair Traffic

Winnipeg, June 14.—Although local service was somewhat impaired, transcontinental railroad traffic was not affected last night or early today by the action of local firemen and trainmen who voted on Thursday to join the sympathetic strike of Winnipeg labor unions.

It was announced this morning that brotherhood executives have conferred with Senator Gideon Robertson, federal minister of labor. Matters discussed at the conference were not made public. It is understood, however, that the brotherhood officers are interested in the new conciliation movement which has begun after a revised plan for strike settlement was suggested by some leading Winnipeg employes.

Oversea Enlistments In Marine Corps Close June 16

The marine corps will accept no enlistments for special service in France after June 16, according to advice received by the local recruiting office. Men enlisting for this special service will be discharged when the expeditionary force is withdrawn.

The marines are now enlisting professional motor mechanics for service with the aviation forces. Proficient men will be enlisted for four years in the ground division with an opportunity to qualify as flyers.

This is the newest branch of service in the marine, and through the war is over, it is being expanded. The peculiar duties of the marines keep them always at war and at the present time airplanes are being used with success in combating the bandits of Haiti and San Domingo. It is expected that aviation fields will be established at marine bases in all parts of the world.

Monetary Situation Holds Attention in Week's History

New York, June 14.—The governing influence on trading on the stock exchange this week was the monetary situation. The Federal reserve board's action being accompanied by the information that it was intended to stabilize the speculative situation by raising the liquidation on Tuesday and on each succeeding day as the rate of money rates, serving further to depress prices, which receded from 20 points above the closing of the previous day.

The decline was influenced in part by belief that the speculation on the long end of the market was over-stated. The market was ripe for a downward reaction, and the bulk under even moderate and close with practically all sales above \$20.00. Saturday's market was 150 to 200 points higher than Friday's, the highest since the high reached in 1918.

Chicago Live Stock. Chicago, June 14.—(U. S. Bureau of Markets)—Cattle—Receipts, 600; compared with a week ago, good and choice light, 100 lbs. to 1,200 lbs.; medium weight, 1,200 lbs. to 1,400 lbs.; heavy weight, 1,400 lbs. to 1,800 lbs.; packing, 1,800 lbs. to 2,400 lbs.; stock, 2,400 lbs. to 3,000 lbs.; calves, 3,000 lbs. to 4,000 lbs.; sheep, 4,000 lbs. to 5,000 lbs.; hogs, 5,000 lbs. to 6,000 lbs.; pigs, 6,000 lbs. to 7,000 lbs.; lambs, 7,000 lbs. to 8,000 lbs.; mutton, 8,000 lbs. to 9,000 lbs.;
