

# CHANGES FEW IN NEW TEXT OF PEACE TREATY

### Revision of Treaty Makes It Longer, Although Original Pact Is Adhered to Rigidly.

Paris, June 20.—(By the Associated Press)—The alterations and amendments incorporated by the council of four in the revised treaty make it a somewhat longer document than the draft originally submitted to the Germans and published in the United States. It now contains 214 pages, five more than the original, and even this was effected by closer paging.

#### Silesian Problem Changed.

The article assuring Silesian coal and minerals to German industry now reads: "Poland undertakes to permit, for a period of 15 years, the exportation

## The Wise Builder

No man ever built a house without thinking over carefully what kind of lumber to use, what kind of a roof to put on, and what kind of paint to buy. This careful consideration must go even farther—not only to the plumbing but to the bathroom fixtures as well. The best-built houses today are equipped with Thomas Maddock's bathroom fixtures. We will cheerfully furnish all information you desire.

## Resinol clears away pimples

No one knows the humiliation of being a "wall flower" better than the girl with a red, rough, pimply complexion. If your skin is not fresh and smooth, or has suffered from an unwise use of cosmetics, try Resinol Soap and Resinol Ointment for a week and see if they

to Germany of the products of mines in any part of Upper Silesia transferred to Poland, in accordance with the present treaty, without export duties or restrictions, and to permit the Germans to purchase these products on the same terms as the Poles.

In the revised draft "the principal allied and associated powers" undertake to establish Danzig as a free city. This language, in which the responsibility of the five great powers for the creation of the new city and state is definitely assumed, is substituted for the original phraseology declaring merely that "Danzig is established as a free city."

#### Disarmament Clause Revamped.

The new article which replaces the original provision for the disarmament of Germany providing for reduction to a specified point within two months now reads in the English version: "Germany agrees that after she has become a member of the league, the armaments fixed by the table shall remain in force until modified by the council of the league. Furthermore Germany hereby agrees to observe the decisions of the council in this respect."

#### Boundary Changes Important.

Important changes are revealed by a comparison of the old and new drafts relative to the new Polish frontiers and the Silesian plebiscite. The frontier changes correspond generally with those outlined in recent dispatches but bring the Polish frontier nearer to Breslau on the east than was at first contemplated, and give Poland a new section of the same province returned to Germany, although the council of four planned for a while to make all Pomerania, Germany on historic grounds.

#### Time Set for Plebiscite.

The plebiscite must be held between the sixth and 18th months after the signature of the peace treaty. The same conditions as regards the retirement of German armies and officials and the disbandment of workers' soviets, which were included in the Schleswig-Holstein and east Prussian plebiscite provisions are found in that affecting Silesia.

#### Urge Kiwanis Club To Assist In Drive For Improved Roads

W. B. Cheek, chairman of the Douglas County Good Roads' association, appealed to the individual members of the Kiwanis club to help arouse interest in the \$3,000,000 bond issue for road improvement, at a luncheon at the Chamber of Commerce yesterday.

## Multi-Millionaires Are Summoned to Appear In Damage Suit Here

John D. Rockefeller, John D. Rockefeller, jr., Theodore Shouts, Charles Schwab and other multi-millionaires are ordered by Sheriff Clark to answer to the Douglas county district court before July 7 in the \$120,000,000 damage suit pending against them here. The sheriff sent out the summons yesterday. The plaintiffs are Louise Osborne Ferson and Grace Osborne, who claim to be the inventors of a baked pork and bean biscuit, which they say was manufactured by the defendants without their consent. The Standard Oil Co., and its various subsidiaries in many lines of business are among the 49 defendants named.

# CONGRESS TO PROBE MEXICAN AFFAIRS SOON

### Republicans Ready to Reverse Wilson Policy; Urge Protection of American Interests in South.

By JUSTIN M'GRATH.  
Washington, June 20.—Congress is believed to be ready to reverse its policy with respect to Mexico. The resolution introduced in the house by Representative Gould of New York, calling for the appointment of a committee of three senators, and three representatives to make a full investigation in Mexico is the initial move of the new policy to which the republican majority practically is committed.

#### Will Protect Property.

The Wilson-Byran idea of leaving the \$500,000,000 of American investments in Mexico at the mercy of roving bandits has no support among the republican leaders. They assert there ought to be security for American lives and American property in Mexico. They are confident that is the opinion of the majority of the people of the United States. They expect opinion in the United States on the subject of Mexico practically will be unanimous, when full revelation is made of all the outrages against American lives and property committed in Mexico during the past eight years.

#### Communists Plot Attack on Austrian Government

Copenhagen, June 20.—Unrest continues in Vienna, according to dispatches from the Austrian capital today and preparations are being made for a new communist attempt against the government. Hungarian communist troops, the dispatches say, are expected to cross the Austrian frontier near Neudorf, south of Wiener-Neustadt, to occupy the munition factories there. Austrian troops have been sent to Wiener-Neustadt.
