FINANCIAL

New York, June 23.—The languid man-ner, amounting to almost indifference, with which Wall street today received the ner amounting to almost indifference, with which Wall street today received the news of Germany's unconditional acceptance of the peace treaty offered ample proof that high financial circles had long ago discounted that momentous event. Stocks were strong at the outset, leaders gaining 1 to 4 points on week-end accumulation of buying orders, presumably for interior account, but prices were soon materially impaired on what apparently were further cashing in of profits.

An uncertain raily ensued before noon, but was followed by another and more severe reaction, the list improving variably later. At its best, however, the market was only moderately active, the total turnover and number of issues traded in failing far short of recent expansive sessions.

Standard shares, such as investment rails, shippings and seasoned industrials, derived little benefit from the day's operations, but some of the motors, oils tobacco and food issues asserted much of last week's supremacy. Equipments also contributed to the higher level with low-grade transportations, minor metals and annoty specialities, notably industrial Al-

on call.

Some of the motors, rubber and food issues were at highest prices in the final hour but the general list pursued an uncertain course as call money hardened. The closing was irregular.

Tradium in stocks today hinged mainly

There were fair arrivals of corn today

Chicago, June 23.—Peace news today made the corn market ascend to the high-Omaha Grain Market.

There were fair arrivals of corn today with \$1 cars, while other grains were light. Wheat receipts were 17 cars, oats \$24 cars, rye \$ cars and barley 4 cars.

Corn had a rather slow sale with prices ranging from unchanged to a cent off. White brought about Saturday's figures, while the bulk of both yellow and mixed was a cent lower. Oats were generally unchanged. Rye was unchanged to a cent off and barley steady. Wheat advanced 2 cents. No. 1 hard bringing \$2.45 and No. 2 hard \$2.44.

Cash sales today were:

Denominations: \$1,000 and \$500 bonds in all maturities.; \$100 bonds in 1931 maturity only. We briefly summarize this loan from a letter to Mr. A. C. McCord, Presi-

dent, on file in our office:

Borrowing Corporation: The McCord Manufacturing Co., founded eleven years ago, is one of the largest exclusive manufacturers of automobile radiators, together with gaskets and lubricators for steam and gas engines. Among the automobiles and trucks using the McCord radiator are the Marmon, Cole, Premier, Chalmers, Dodge, Mercer, Studebaker, Hupp, Dort and Maxwell cars, and the General Motors, White, National, International Harvester, Kissel, Federal and Nash trucks. The company has enjoyed a steady and rapid growth and is a prosperous going concern, in excellent standing in the trad, e and enjoying the highest credit rating, AAA1. Its plants, located at Detroit and Wyandotte, Mich., are the largest of their kind in the United States. The purpose of the issue is to retire current indebtedness and provide additional working capital. The ownership and management of the company remain in the hands of experienced, progressive and able men who have built up this business from its incep-

Assets and Working Capital: After applying the proceeds of this issue, the company will show total assets of \$3,865,154.75, with net quick assets of \$1,630,-

Earnings: The average net earnings of the company during the last five years, after deducting Federal Taxes, averaged \$430,468.55, nearly five times the greatest annual interest charge of these bonds.

Quick Assets: The trust mortgage requires the company to maintain quick assets of twice the amount of current liabalities, exclusive of these bonds, the

excess in no case to be less than \$1,000,000. Income Tax: The borrowing corporation covenants to pay 4% Federal In-

Monthly Deposits: In accordance with the usual provisions for the Straus Plan, monthly deposits of principal and interest are required so as to provide systematically for the payment of both principal and interest in cash on the days when due and to make certain that the profits as received each month are applied to the payments of the bonds. Each monthly deposit is one-sixth of the total amount of principal and interest coming due on the next coupon date.

> We have purchased a substantial amount of the above issue with our own funds after careful investigation. The bonds have been surrounded by all the customary safeguards of the Straus Plan, to which is due their record of 37 years without a dollar's loss to any investor. We recommend these bonds as thoroughly safeguarded investments.

New York Dry Goods.

New York, June 23.—Cotton goods were firmer and higher in the gray goods division. Prices named on dress ginghams, for spring buy, one large factor, were within 14 cent a yard of the net government prices during the war period. Dress goods for spring will have to be allotted by several large mills owing to the oversold conditions. Burlaps were firm, tending higher. Raw silk was higher. sold conditions. Burlaps were firm ing higher. Raw silk was higher.
