Bert Hall, One of Survivors of Famous Lafayette Escadrille, Enters Transpacific Trip Competition.

Oakland, Cal., June 24.-Lieut. Bert Hall, one o the surviving members of the Lafayette flying squadron, and an American ace with nine German planes to his credit, plans an air flight across the Pacific ocean from San Francisco to Tokio, Japan, according to his announcement recently. Prizes of \$75,000 have been offered for the flight.
Lieutenant Hall plans to begin the

flight on August 1.
"There is no doubt in my mind," said Lieutenant Hall, "that the flight to Japan can be accomplished successfully. The longest flight would be from San Francisco to Honolulu, and in my opinion, it would be relatively easy. After leaving the Ha-waiian Islands I could alight at the Guam and other small islands in

the eastern sea." · As soon as Hall announced his plans Oliver Kehrlein of Oakland, offered a prize of \$25,000 for the successful completion of the flight. Thomas Inc, motion picture man Los Angeles, has offered a prize of

"I need only to follow the regular trade courses," said Hall, "and if I encounter engine trouble or other difficulties I will be picked up by some vessel. There is an average of one vessel to every 25 miles along the trade courses; so the worst need fear is a little wait or perhaps a splashing of water.'

SIX-CYLINDER car ain't six-cylindered if five are cracked. Last spring we figured we had both pennants tied up in the old sock with a sorking wet knot. Now it looks as if the sock beonged to Kris Kringle.

The toughest slice of the season is over. The long uphill struggle is over and the Oilers are now going downhill.

## BEEVO'S WORST ENEMY.

The Cooties are out to win this season's pennant. And when the Cooties are out—they're out. They've been out for 40 years. The oldest guy in Oklahoma City remembers the last time, the Oilers copped the flag. Which is the reason why he's the oldest guy in Cincinnati.

Ty Cobb is batting like twins. If Detroit doesn't win the pennant this rear they never will. Which is what makes everybody in Detroit weep ike the winner of a baby show.

## THE BIGGEST SIXTH CITY IN THE U. S.

Looks like nothing can keep us out of the series this fall. Nothing generally does. Ever since Nap Lajoie caught cold in his ear eating grapefruit in 1906, Cleveland has lost on trifles. We're off in a cloud of slipped whiskers and nothing can stop us but rain, strikes, fire, earthquakes and other things mentioned on the back of an Adam's Express

The team that Kid Gleason has joined let no man put asunder. The Sox are spending that series money already like a champ checker player in an almshouse. If there ain't any more velvet in this world series than there was in 1919, it looks as if the winner will be the loser. The Cubs are going pretty good for the Cubs. They haven't lost near as many games as they've tried to lose.

## THE PRESIDENT'S HOME (WHEN HE'S HOME).

After one squint at the Senators, you can't blame Woody for hiding in Europe. The Senators are in the running for the pennant, but they are running the wrong direction. Team is going good. We have a batter among the first five, a pitcher among the first six, a base runner among the first 10 and a team among the first eight.

Would chirp that this is the best AMONG town among the works.

The old ash pan has dropped out of the bottom of the heater. The Braves are making more motions than a bear fighting two hives of bumble bees. The Red Sox are 1918 champs, but you can't sell last year's snow balls. Both teams are playing the brand of base ball that the health authorities put up yellow signs for.

## THE CITY OF BROTHERLY BOMB THROWERS.

Fans here go out to the Phils to forget the A.'s and out to the A.'s to forget the Phils When both feams are home the fans leave town on a traveling schedule of their own. Hard luck is following the A.'s, but everything else is heading 'em. The Phils are one layer above the A.'s and are going strong, like limburger. Ever since Baker sold Alexander the Phils have about as much chance to crash the pennant as a bowlegged flapper has of busting into the front row of a Broadway chorus.

(Toilet Talks)

A simple method for completely emoving every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and after about 2 minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get delatone.—Adv.
