TURKEY BLAMES Friendship Agreement Is **EX-KAISER FOR** THE 'CATACLYSM' Says Secret Treaties With Germany Caused War, Plus the Russian Greed for

Constantinople.

Paris, June 26 .- The statement of Damad Ferid (sherif) Pasha, delivred to the Council of Ten, Tuesday, June 17, respecting the Turkish position and also the reply of the allied and associated governments, dated June 25, were made public Thursday. The Turnish note, is part. follows:

"The responsibility for the war in the east-assumed, without the knowledge of the sovereign or of the people in the Black sea, by a cupied adjoining desks. They were German ship commanded by a Ger- fast friends. They worked together the signatories of the secret treaties, which were unknown alike to the Ottoman people and to the European chancellories. "These agreements were conclud-

ed between the government of the kaiser and the heads of the revolutionary committee, who, at the be ginning of 1914, had placed themselves in power by means of a coup d'etat. I call to witness the official dispatches exchanged between the representatives of France and Great Britain and their respective govern ments, during the three months which preceded the outbreak of hostilities between Turkey and the

empire of the czars. "When war had once been declared the eternal covetousness of Russia as regards Constantinople was skilfully represented to the pcople as an imminent danger and spicuous activity by himself and his anxiety for the preservation of national existance. Thereupon rendered the struggle

a desperate one. Turkey deplores department. The communication the murder of her Christian colonials as much as she does that of inquiry recently adopted by the sen-Moslems.
