

INFILTRATION OF SERBIA BY THE TEUTONS BEGINS

Hotels of Belgrade Harbor Guests Whose Identity Is Revealed by Teutonic Cast of Features.

Belgrade, June 28.—The German and Austrian peaceful infiltration of Serbia has begun. The hotels of this city harbor guests whose identity is revealed by their heavy Teutonic cast of features. They talk in German and laugh loudly over their beer. Indeed, if one does not speak German in Belgrade one sometimes finds himself misunderstood. The waiters do not know English or French in the majority of cases.

"My friends in Basle told me I would be mobbed in Belgrade if I spoke German there," declared a self-styled Swiss salesman. "However, I found that when I spoke Italian I was treated with disrespect, that when I spoke French I was ignored and that when I spoke English I was smilingly but politely told, in German, that I could be best served by speaking the tongue I know best."

Serbia from one end of the country to the other has been flooded with cheap Austrian and German goods. How they got in one cannot learn, but every shop window in the villages from Uskub to Semendria contains cheap mirrors, toilet articles, knives and gimcracks of every description "Made in Austria." Many of the articles are backed with colored pictures under celluloid of the former Austrian and German emperors in all their regalia. There seems to be little prejudice against German and Austrian goods among the peasants and village dwellers of Serbia.

The Serbian hates the Bulgarian as venomously as ever but he does not sing a morning hymn of hate against Germany or Austria. The country is flooded with pictures of atrocities committed by Bulgarians upon Serbians. The former Emperor Charles' picture still adorns the local police headquarters.

In Belgrade there is bitterness against the Austrians, especially among the better class of people whose homes were systematically despoiled by Austrian officers who shipped 60 trains of household goods from Belgrade across the Danube into Austria. Each train was composed of approximately 30 cars. Three hundred pianos were included in the loot. Belgrade and northern Serbia are flooded with the depreciated Austrian currency—in fact, there apparently is more Austrian money in circulation than Serbian.

DEFIES MINERS' GERMAN LABOR UNION HEADS

Officials Resign Rather Than Accept Responsibility for Strikes in Coal Fields of Ruhr District.

Berlin, June 28.—(Correspondence of the Associated Press.)—No longer willing to take the responsibility for the "economic neck and incalculable suffering" caused by repeated strikes, leaders of the old Miners' Union associations in the Ruhr district have tendered their resignations. These men, most of whom are majority socialists, have bitterly opposed the strikes which for weeks have been disrupting the coal fields.

"Strikes begin over the heads of responsible leaders and against our advice," the retiring officials say in a statement accompanying their resignations, "and are not answerable to our comrades."

"A large portion of our members and officials are prevented from attending miners' meetings and are shouted down, cursed and threatened, while irresponsible 'word heroes' work in the most senseless manner for the destruction of our association in order to attain their political purposes, which lead to economic and political anarchy and prepare the ground for counter-revolution opposition. They see in the Spartacists their ally and peace-maker."

"By strikes the number of workless Germans has been doubled, industry lamed, hunger lengthened, food importation prevented, the economic, financial and political breakdown of the German republic brought into the near future, and unionized discipline destroyed."

"We decline responsibility for all that. Our conscience, our honor, our past filled with sacrifice, and our love of our comrades force us to abandon definitely a path which many of our members appear to be taking."

Get Booze and Girls But Arrests Followed

Kansas City, Mo., June 28.—"We want some booze, George. Can we get it here?" asked two soldiers of James Warren, the negro porter of a hotel here.

"Yessah—yessah; but mah name's James, not George," said the porter, as he turned to leave the room.

"All right, James; and a couple of girls, too," one replied.

"Sho, boss," replied the porter. Soon two girls and a bottle or two of booze came to the room. Just then three men walked into the room and arrested the two girls. One of the men was Lt. Joe Haberkorn, in charge of the military police here. The other two were government agents. The negro porter, the hotel manager, with the two girls were arrested. The police are said to have refused to raid the hotel.

ENGLAND MAKES EFFORT TO STOP ALL EMIGRATION

British Empire Seeks to Discourage Its Subjects From Seeking Homes In Foreign Countries.

London, June 28.—British subjects endeavoring to emigrate to the United States are having their troubles. Due to the lack of houses, the glut in the labor market and the high cost of living, hundreds of newly-married couples anxious to escape to some other part of the world where opportunities and conveniences are more plentiful.

In the Nottingham Gate district there is a line of men and women daily who are seeking to go overseas. When they say they want to go to Canada, Australia or some other part of the British empire, they are given every consideration and allowed to proceed as rapidly as limited facilities will permit.

But if they want to go to the United States they must go through another line at the American consulate, where only about one in five would-be emigrants succeed in getting their papers to go forward.

Apart from business passports and papers for returning soldiers, many of them having served in the British army, few permits to go to America are being issued.

The government emigration office, feeling perhaps that the name implies a severing of ties with the homeland, has changed its name to the Overseas Settlement office. The word emigration here after will be applied only to settlement outside the empire.

Warnings are being given the would-be "settlers" that in many of the large cities in the dominions conditions are crowded, and each applicant is asked to go fully into future plans before undertaking settlement abroad.

Pins Medal On Himself Then Dodges Publicity

San Francisco, June 28.—Major General John F. Morrison, commanding officer of the western department, is wearing the ribbon of the Distinguished Service Medal recently awarded him by the government for meritorious work in the training of American soldiers for service in France.

True to his natural modesty and well known dislike for publicity, no ceremony attended the bestowal of the medal. General Morrison, being the commanding officer of the western department and the ranking officer on the Pacific coast, simply pinned the medal on himself.

Tamura, Neb., April 23, 1918.

Widhelm Remedy Co., Fremont, Neb.

Gentlemen:
Replying to your inquiry as to how my hogs got along, will say that your Hog Remedy was the first out of a number that I tried that ever cured sick hogs for me that looked like they had Cholera. I gave your full treatment to 35 of the worst ones—some of this bunch had been dying at the rate of from one to three a day—and I only lost one after starting your treatment. I cheerfully recommend your Remedies above anything I ever used to anyone having hogs that are in bad condition, and would in a friendly way advise such to give the Widhelm Remedies a trial.

Yours truly,

Best Worm Powder on Market.

Hampton, Neb., Nov. 20, 1917.

Widhelm Remedy Co., Fremont, Neb.

Dear Sirs:
Please ship me 200 lbs. Hog Powders. I have 31 little pigs and need some worm powders. You may send me three cans of your Worm Powder. I know that you have the best on the market, as the pigs will pass worms for three and four days. I believe if more people would use your worm powders and hog tonics there would not be half as many hogs dying through the country each year. I can certainly recommend your Remedies to all who aim to raise good healthy stock, and I know you have proven to several of my neighbors that your goods are all you claim. Their little pigs had the white scours and your Remedies cured them in a few days and put the rest of the hogs in fine shape. I am enclosing check for the powders and also for one of your Tank Heaters, and wish to say I am sure stuck on that sanitary hog waterer—it works fine.

Yours truly,
H. J. HOEGH.

Cured Herd Sick With Necrobacillosis in a Week's Time

Staplehurst, Neb., April 23, 1918.

Widhelm Remedy Co., Fremont, Neb.

Dear Sirs:
In regard to our Remedy for Hogs, I just wish to say a few words. My hogs were dying at the rate of 20 a day when you came down here and asked me to try your Remedy for Necrobacillosis. I started in with the treatment on Monday, and in about a week's time my hogs had all quit dying and had started to put on flesh. They were sure as hard a looking bunch as I ever saw before you started to treat them, and I fully expected to lose every one of them. Your Remedies have certainly done wonders for my herd, and I only wish I had known of them sooner.

Yours respectfully,
HANS PHILLIPSTN.
