Hogs—There was a heavy run of hogs here for Saturday, \$258 loads estimated at \$1.000 head. There has been sharp discrimination against heavy packing hogs this week, especially heavy sows, which has carried them down to the bottom of the list. There has been a corresponding inquiry for better demand for light well finished hogs which carried them to the top. In fact the demand from shipper with a tendescy of packer buyers of lowering the heavies has created a much wider spread in prices than for sometime which has brought about a situation

Chicago, June 28.—Corn traders busied themselves today liquidating holdings in the July delivery and gave only passing notice to the signing of the peace treaty. After ruling weak most of the time, values closed unsettled 1%c nat lower to %c advance, with September \$1.75% to \$1.75% and December \$1.53% to \$1.75% and December \$1.53% to \$1.75% to state outcome varied from 5e decline to an equal sain.

the outcome varied from 5c decline to an equal sain.

Virtual indifference with which the signing of the treaty was regarded as a price-making factor merely demonstrated that the news of the signing had been discounted in full, so far as the event could affect the value of corn. On the other hand, the necessity of liquidating July holdings was an urgent matter for unlicensed dealers. Besides, the market was weighed down by the fact that considerable grain was arriving out of condition. Toward the last, however, railies took place as a result of covering by shorts who desired freedom from risks over Sunday.

Improved crop reports tanged to weaken the oats market. Dealings, though, were listless. Provisions held about steady. Higher quotations on hogs helped to sustain val-

When the great Burk-Waggoner well spouted oil April

25, this year-less than two months ago-it opened an era of golden investment opportunities such as the people of America

have never known before. The original Burkburnett pool has

paid stockholders over \$7,400,000 in dividends since the dis-

covery well was brought in last July, hundreds and thousands who barely existed by their daily work have been made inde-

pendent by oil investments, and an even greater opportunity to

invest your money and have it come back to you many times

Burk-Bonanza Oil Company

Ever since the Burk-Waggoner well was brought in, far away from production, the burning question has been: Does the oil pool cross Red river into Oklahoma, follow it along the

Texas side, or do both? The officers of the Burk-Bonanza Oil

Co. have taken no chances, but have purchased four choice leases, one across the river from the Burk-Waggoner, and

three on the Texas side, and further up Red river. No mat-

ter which way the pool goes, we win. And we think we have

a splendid chance of winning more than once, for the 5,000-

barrel Texas Chief well, north of the Burk-Waggoner and right on the river's bank, indicates an extension of the pool

into Oklahoma, and the M & P Burk, a wild wildcat, shows a westward extension towards the Burk-Bonanza leases on the
