## JOHNSON BOOM CONDUCTED BY F. A. HARRISON

### "Committee of One Hundred" Organizer Now Devoting Energies to Backing California Candidate.

Lincoln, July 1.—(Special).—The rumor that Frank A. Harrison had turned over the work of plugging for the "Committee of One Hundred," supposed to be banded together to control the constitution convention in the interests of the Nonpartisan league, union labor, and other organizations, to Rev. Mr. Weatherly, the man who helped Henry Ford "get the boys out of the trenches before Christmas," is denied by Mr. Harrison. However, it is understood that Mr. Harrison has turned his attention to organizing the state for Senator Johnson of California for the republican nomination for the presidency. It is known that Mr. Harrison is sending out Johnson propaganda in the form of letters and expects to put over the California man as far as the Nebraska delegation is concerned. However, with a very strong Leonard Wood sentiment already

## U. S. Judges Conclude Hearing in Lincoln Street Railway Case

Federal Judges Smith, Wade and Woodruff, sitting en banc, concluded yesterday the two days' hearing of the application of the Lincoln Traction company for an interlocutory injunction against the Nebraska railroad commission to restrain the enforcement of the commission's orders in connection with street railway fares. The case was taken under advisement, the court announcing that it could not make a definite order at this time. A ruling was made which is declared to be a victory for the railway commissioners. The commissioners had ordered the traction company to file an inventory of its property but the company refused to do so. The court directed that this inventory be filed at once to be used in determining the case. On account of the great mass of evidence and arguments, written and oral, the decision may be delayed for some time.

## South Side MORRIS PROFIT-SHARING PLAN IS ANNOUNCED

Packing Company Will Confer Benefit Upon Employees; Plan Goes Into Effect on July 4.

Distribution annually of more than \$500,000 in interest on capital and profits on investment of Morris & Co. packing plant is announced by the company in the shape of a new "profit sharing plan" to be launched July 4, for the benefit of Morris employees of the United States.

The local plant employs 1,700 persons. The net earnings of the Morris plants for the year ending October, 1918, were \$4,278,853, of which 5 per cent of the amount which would have been turned over under the new plan, would be \$210,892.90. Employees who purchase bonds before September 1, this year, will share profits for the entire year ending November, 1919.

"We are expecting large blocks of stock to be sold," J. H. Kenna, manager of the Omaha plant, said Monday. "Our employees have been quick, in the past, to realize the value of investments made for them."

"Morris Packing Co. owners have fathered three similar projects in the past 10 years, the Morris pension fund, the Employer's Benefit association and the Valmore tuberculosis sanitarium of New Mexico."

**Allow Payment Terms.**

Mr. Kenna explained how the plan would operate. An employee earning \$1,000 per year who invests \$50 in collateral bonds at 4 1/2 per cent interest rates can pay for his investment in two years by having \$4.58 deducted from his weekly pay. Earnings of the investment for the first year would be: Interest, \$24.75, and profit sharing, \$22.82.

The plan will operate under two sets of directors, one appointed by the company, a board of five, and the other selected by employee stockholders, a chairman and an executive committee of three. The company's committee, already appointed, is as follows: J. H. Kisse, W. F. Sheely, J. H. Kenna, Sherman T. White and Miss E. M. Kinney.
