

OUR NEW FACTORY WHEN COMPLETED

A PROVEN SUCCESS

Is what can be consistently said of the Crow Tire and Rubber Company. While operating in a very small factory with a greatly limited output it is really marvelous that it was possible to pay an 8% dividend and a special dividend in 1918 to stockholders. We also paid our regular semi-annual dividend of 8% July 1st, this year.

Using even only common horse sense you can readily figure out what we will be able to pay in dividends when we get into our big factory, which will be completed in the near future.

The demand for Crow tires is increasing every day, which in itself is the best indication of the merit of the product.
