**Now You Can See It!**  
"RUN to that little glow dear, and press the button on the switch. Isn't it easy to locate things in the dark with an **Ingersollite Locator**?"

Real radium in the substance on the little discs and in the glass pendant makes them glow for years.  
Because Locaters are made in three styles—Pendant, Tack and Adhesive—you can put them anywhere. Door-bells, furniture obstructions, poison bottles—anything that safety or convenience demand that you should locate in the dark—are marked clearly and distinctly by these little luminous besacons.  
Three styles—Pendant, Tack, Adhesive—25c each—at all progressive dealers.
