## MAKES PLEA TO SAVE CODE LAW FROM RECALL

### Leading Republican Says Machine Is Preferable to Allowing Profiteers to Continue in State.

Lincoln, July 6.—It appears to be the opinion of a great many people that the democratic propaganda committee having for its object the discrediting of the republican legislature by holding up the new code law by means of the referendum, has pulled the biggest "homehead" that has been seen for many a long year in politics.

"Profiteering is the one big problem which has to be met," said a prominent republican. "We could afford to let everything else go if there was any way that something could be done to punish those who have taken advantage of conditions to fill their own pockets. We can afford to stand for all the so-called things that might be in the law relative to high salaries, one man power and the like, if it seeks to punish the profiteer.

"They tell us that the code law enables the governor to build up a machine. Well, if it does, give the governor a chance to build up a machine and he will use that machine to put out of business the most unfair and outrageous machine, that of the profiteer, that has ever existed in this state, then let's have the code law and the machine it perhaps creates.

"Personally I don't believe the code law enables the governor to build a machine, other than perhaps such a machine as is necessary to run state business, but if it is enough of a machine to kill off profiteering, I am for it and the knocking out of the code law by means of the referendum is the biggest mistake that has been made for many long years. If there is any way the special session can counteract the work of the democratic propaganda committee and give the state a chance to put

## Commission Changes Rule for Distribution of Cars to Elevators

Lincoln, July 6.—The state railway commission, which two years ago promulgated and put in effect a rule for grain car distribution, now has discovered that the rules are discriminatory and unreasonable and that the cars should be distributed according to the amount of grain in the elevator and ready to ship.

The commission points out that two rules, one for intrastate and the other for interstate, cannot be in effect at the same time at the same place, and in a case in which the Burlington railroad is interested orders a uniformity of treatment of shippers.

## 200 ELSASSERS HOLD PICNIC AT ELMWOOD PARK

### Descendants of Five Brothers Who Settled in Omaha Over 50 Years Ago Meet Sunday.

Elsassers to the number of close to 200 gathered in Elmwood park yesterday for their annual family reunion and picnic. They came from far and near and had it not been for the fact that the call of the harvest was heard in the land, the number would have been much greater.

It so happens that while many of the Elsassers are city residents, the majority of those who trace their ancestry back to the five brothers who settled in Omaha something more than 50 years ago are tillers of the soil and raisers of fine cattle. Consequently, with the harvest upon them, they did not feel that they could leave their fields for even a family picnic. However, it was a great family gathering. Nebraska was well represented, as were Iowa, Kansas and South Dakota. There were five generations present.

Of the direct descendants of the Elsassers who first came to Nebraska, there were Peter, Fred, Charles, Chris, Jake and Herman Elsasser; Mesdames Kate Pfug, Emily LaFle, Mary Gugler, Emily Rice, Kate Getzschmann and Anna Schmidt. Then there were their children and their grandchildren and scores of nieces, nephews and cousins.

There were ball games, only Elsassers and relatives participating; pitching of quoits, races and athletic stunts.

At 6 o'clock a regular old-fashioned family dinner was spread, with Peter Elsasser, the veteran of the male side of the family, occupying the post of honor at the head of the table.

He is survived by a widow and a child 5 years of age.

## Traveling Salesman

E. E. Wright

Selling hardware has become a habit with "Gene," as Edwin Eugene Wright, veteran salesman for Wright and Wilhelm, wholesale hardware dealers, is known to practically every retailer around between here and Columbus, Neb. "Gene," whose birth record shows that he is still one notch this side of the half-century mark, has been on the road for the big Omaha house for 27 years now and seems good for a full half hundred.

"Gene" has been a traveling salesman ever since he could check a trunk or buy a railroad ticket. Shortly after attaining his majority he hitched up with his present employer and has distributed their goods through Nebraska and South Dakota ever since. For about 10 years the Black Hills dealers grew to expect his cheery smile every two weeks before he was assigned to his present territory. He is now about the oldest traveling salesman on the force.

"Gene" admits that the game is telling on him, but still enthuses when his company takes over a new line of goods. He buys his ticket regularly every Monday morning and returns on Friday nights for the week-end with his wife and two daughters, who welcome him home to his slippers and easy chair at 1730 South Twenty-ninth street.

## Outwits Hun Captors and Saves His Diamond

Bradock, Pa., July 6.—How he outwitted his German captors after being taken a prisoner and saved a diamond ring valued at \$200 was told here by Sgt. Ray I. Limbacher. The sergeant was wearing the ring when captured but slipped it into his pocket. Later he tied a string taut across the neck of his undershirt and to this string he looped another piece, the end of which the ring was attached, hanging at about his waist line. Limbacher was searched by two Boches and while they searched one side of his body he managed to shove the ring to the other and vice versa.

## The Idea is Convenience

From one idea the ideal Oshkosh Wardrobe Trunk sprang—convenience. His designers saw how room could be saved—giving place for more clothes—saw how compartments should be fashioned—to hold clothes in the correct position—how the trunk should be built to give the maximum of strength.

And its beauty counts a lot—for in traveling one is known by the luggage you carry. The Oshkosh embodies the essential points, strength, convenience and appearance. Yet they cost no more.

## FARMER SAYS HIS FRIENDS FAIL TO RECOGNIZE HIM

William Porter Was So Built Up By Tanlac That He Looks Like Different Man.

"There's been such a remarkable change in me that my friends, who haven't seen me since I began taking Tanlac, don't know me on first sight," was the statement made by William Porter, a well-known farmer of Hanna City, Illinois. R. F. D. No. 2, while in the Sulliff & Case drug store at Peoria, recently.

"So many of my neighbors were telling me how well I was looking these days," he continued, "that I got on the scales to see how much I had gained in weight and was surprised to find that I actually pulled down 43 pounds more than I did the day I started on Tanlac—going up from 117 pounds to 160. Why, even my wife has been astonished, and, say, she can't understand how a medicine could do what Tanlac has done for me.

"My stomach has been all out of whack for 16 years, and, as nothing ever helped me, I had about come to the place where I was ready to quit trying. Many a time after eating I had such awful cramps in my stomach that I thought I would die. I would swell up with gas. I would be so dizzy for hours that my head seemed to be spinning around like a top, and I couldn't walk. I finally got so I was afraid to eat anything except something very light, as anything the least bit heavy would bring on one of those terrible spells of cramps. I couldn't sleep but little at night, always felt worn out in the mornings, and what little work I did on the farm was a drag to me. I would be so weak and played out by the middle of the day that my knees would knock together as I walked. I was contipated all the time, had sick headaches, and was so nervous and weak and miserable that I just felt like giving up the fight.

"During those 16 years I spent close to \$3,000 for treatment and medicines, but nothing ever helped me until I got Tanlac. I was so discouraged that I couldn't see any hope of ever getting better. One day I said to my wife, 'Do you reckon this Tanlac, I read so much about, would help me?' So we talked it over and I got a bottle. Well, what that bottle and nine others together have done for me has astonished everybody that knew my condition. Why, I don't feel like the same man and look so different that I have to stop my friends who haven't seen me in some time and tell 'em who I am. Things that used to nearly kill me when I ate them don't hurt me now a particle. I sleep like a log every night—never wake up until the birds begin singing around the house—and I feel like a boy again, full of life and energy. I hop out of bed in the mornings hungry as a bear, eat more breakfast than I used to eat all day, and go to work feeling fine, and can do as big a day's work as I ever could in my life. I am now as strong and well as anybody and I believe Tanlac will do the same thing for anyone else in the same fix I was."

Tanlac is sold in Omaha at all Sherman & McConnell Drug Company's stores, Harvard Pharmacy and West End Pharmacy. Also Forest and Meany Drug Company in South Omaha and the leading druggist in each city and town throughout the state of Nebraska.—Adv.
