## **R-34 SAFELY IN MINEOLA AFTER** PERILOUS TRIP

Voyage Ends Early Sunday Morning: Aircraft Arrives With but Enough Gasoline for 90 Miles

### (Continued From Page One.)

tip end of Long Island was reached All's Well That Ends Well." it was decided to go on to Mineola With the goal almost in sight, the R-34 flew majestically above the island and headed straight down the center of it for Roosevelt field, 100 miles away.

As she cruised over Riverhead. the dirigible came within range of the wireless telephone installed at Roosevelt field by the navy radio service and perfect communication was established. During the night received by the navy radio station in New York.

Over the wireless telephone it was explained to Major Scott that a large in landing had been sent to Montauk Point in motor trucks in the expectation that he would tie up there and that consequently preparations for receiving him had not quite been completed.

The mammoth balloon was sighted in the distance about 9 o'clock and 15 minutes later was over Roosevelt field. She cruised about in a circle at a height of about 1,000 feet until word was telephoned that everything was in readiness for the landing.

### Drops From Parachute.

While the R-34 was circling the field at a great height, Major Pritchard jumped off with a parachute. He landed safely near headdoors before an ambulance that had been rushed to the scene could reach

Lieutenant Hoyt, U. S. N., the ground officer, had assembled on the field a force of more than 500 soldiers and sailors ready for immediate action as the R-34 circled lower and lower. When it was only 200 feet from the ground a huge hawser was let go from under its nose. noncommissioned officers British shouted gleefully as they seized the rope and hung on.

Then water ballast was dropped from the forward end of the dirigible and its nose tipped. Then it began to descend. Five more guide lines were dropped and landing parties grasped them as the water ballast was dropped from the stern. In both operations at bow and stern, the landing crews were drenched by the cascading water. Major Scott directed all the details of the landing and it was carried out smoothly. The hawsers were attached to concrete blocks, two at each end and one at either side in the center. When the great ship was safely ones at its nose were cut loose so

"All's well that ends well." was the greeting of Admiral Glennon before he read an official message of welcome from Secretary of the Navy Daniels, welcoming the R-34 to the United States and extending warmest congratulations upon her wonderful achievement. All the air voyagers were in excellent physical condition except that

as you pass us on your enterprising heart failure and dropped dead. She was 74 years old.

wind like a could swing with th ship at anchor. The landing crews will stand by all through the night to hold it safe.

### Magor Scott First "Ashore."

The first man to step "ashore" was tired, but happy. On his face was several days' growth of beard and he showed plainly the strain he had been under. He wore the regulation air costume. Short and chunky and typically British, the military skipper of the huge airship shook hands with Gen. Lionel E. O. Charlton, British air attache in the United States, who was waiting for him. The greeting was as typically English as the appearance of the commander. There was no demonstration and the two officers met as casually as though the trip had been over the Baltic and the German across the English channel. Brig. Gen. E. M. Maitland, D. S. O., official observer for the British air ministry, was the next to step out of the car. He looked fresher than his companions, for he had no duties to perform on the way across,

except to keep the log. His only regret seemed to be that sured, the crew of the R-34 resumed the R-34 "had caused anxiety" by preparations for the historic flight

fering from fatal diseases would be in per-fect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just '' to any up-to-date drug store and get come Nicotol tablets; take them as directed and lo: the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this pa-per. It tells of the danger of nicotime poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result. ering from fatal diseases would

have died each year in the past decade long before their allotted span of life. through the effects of excessive fatness. Any overstout man or woman is carrying unhealthy adjoosity that is pressing against and injuring vital organs of the body. The heart, that delicate human apparatus, becomes congested. In numer-ous cases there are dangerous gatherings of packed-in fat around the throat, stomach, liver and other delicate parts. Through overstoutness the afflicted per-son while apparently well is liable to mental collapse and other disorders, for obseity is irritating. Cases of heart failure, apoplexy, sunstroke, etc., are fra-quent causes of premature death. Fat persons are particularly victims of acci-dents and are more liable than healthy, slender persons to death from influenzs, pneumonia and other severe aliments. If you are cersitout you should know it is truly a case of slow suicide for you to kill yourself apport your efficiency should be improved by becoming slender; labo you appearant bold the dense swayer end more distify fat. Moreover, your efficiency should be improved by becoming slender; also you are presenter should be emp yours end ender distify fat. Moreover, your efficiency being of acting indeed, you may east all you need, the korelu system is intend is so pleasant because it contains no throid or other such drastic ingredients. In intend is so pleasant because it contains no throid or other such drastic ingredients. In invanied; it is prefectly humises, indeed, you may east all you need. The korelu system is invariated; it is prefectly churches, treat a longer life. Be fair to yourself and those who are dear to you! Surprise creybody with your renewed vigot, vi-vacity and surpassingly superior person-ality. Get oil of koreis (the easy korein rystem is in each pkyc.) at the drug store without delay; or if more convenient, end \$1.00 ccash, stamps or money order to Korein Co., NM-69, Station F, New York, N. Y.
