A GREAT COMBINATION FOR BIG PROFITS AND INCREASE IN VALUE

Now is your opportunity to make the best investment you have ever had the opportunity to take advantage of in your life. Investigate and get full information on the EIGHT PER CENT GUARANTEED PREFERRED PARTICIPATING STOCK of the SKINNER PACKING COMPANY.

This stock is guaranteed as to the first 8 per cent and participates in the full and entire profits of the Company.

The management was told during the bankers' convention, by several of the most prominent out state bankers that every statement we made in regard to the increased value of this stock was conservative and in their opinion this fully participating stock would increase in value to several hundred dollars per share inside of the next few years.

Act now, while you can get this stock at the present selling price of \$125. Our first issue was over-sold and this issue will be over-sold and the last part of it will be sold at \$150 per share. Consider this in the light of an opportunity. Other men of standing and success have bought this stock and strongly believe in the great future of the Company, because the Omaha market offers the best location, our trade name is nationally known, our plant and branch house property are superior to all others from an efficiency and low operating cost standpoint, our organization high class and the Company is organized on a clean, high-grade basis.
