It is especially true that when elderly people change their routine they quickly become constipated. LOOKS APPRECIATED.

It's not what we want to do, but what we get done, that count. No matter what inducement we offer; no matter what sacrifices we make, dear reader, unless you look, it brings us nothing. It's your kindly visits and looks we are after. They are all we'd ask if we had the right of demand. Set your crust as tight as you please, but come here and look. We'll do the rest, or rather our offerings will, but we can't win any of your trade, nor can you win, anything of us unless you look. The look is the big thing. We know that looking here will save you money as much as we know anything, but how can we prove it unless you look. There are many people we are trying to talk to. We want them to look and be happy and contented like all our other customers and boosters for FLYNN'S.
