Sheep and Lambs—Receipts of sheep and lambs amounted to about 50 loads estimated at 13.000 head with a larger proportion of the run consisting of fat grades. Most of the offerings came from Idaho as on meat days this week. Demand was rather dull and draggy on the early session but packers evidently wanted their usual quota of killing grades and the market on the whole ruled generally steady. Some good fat ewes reached \$9.00 and killing lambs sold largely from \$17.00 on up to \$17.25 and better. Inquiry for feeder offerings was not as broad as yesterday and very little business was transacted in this branch of the trade until well along towards mid-day. Prices were quoted to steady to perhaps a little lower with bulk of the good feeder lambs moving around \$14.15 @14.40. Yesterday's close for feeder grades were considerable lower than the opening most of the late sales reflecting declines of 25 @40c.

\$500,000.00 Fairmont Creamery Company 7% Cumulative Preferred Stock

Par Value \$100 Per Share

Dividends Paid on the First Day of January, April, July and October. CAPITALIZATION

(Upon Completion of Present Financing)

Outstanding Authorized Preferred Stock, 7% Cumulative \$2,000,000.00 \$1,774,500.00 Common Stock 4,000,000.00 2,248,200.00 EXEMPT FROM THE FEDERAL NORMAL INCOME TAX

For information regarding this stock, we refer to a letter from Mr. J. H. Rushton, President of the company, from which we summarize as follows:

TAX FREE TO THE HOLDER IN NEBRASKA

The Fairmont Creamery Company was incorporated in 1884, with a capital stock of \$5,000.00. Today, it is the second largest Creamery in the world, having assembling plants located at Columbus, Ohio; Crete, Nebraska; Omaha, Nebraska; Grand Island, Nebraska; Green Bay, Wisconsin; Spokane, Washington, and Buffalo, New York, together with distributing plants at Boston, Massachusetts; New York City, New York; Pittsburg, Pennsylvania; Scranton, Pennsylvania, and Butte, Montana.

The Company has no funded debt, and no mortgage on the real estate or plant can be created without assent of two-thirds of each class of stock outstanding.

The proceeds of the new \$500,000.00 Preferred Stock will be used to provide for and take care of the rapidly growing business.

This stock is preferred as to assets and dividends. We estimate that the total net tangible assets available for the preferred stock over all liabilities is \$5,101,427.08, or more than \$287.00 per share of preferred stock

Net Earnings, after deducting excessive Federal Taxation for the years 1916, 1917 and 1918, is at the rate of more than four times the dividend requirements on the total Preferred Stock, including the new issue.

Cash Dividends of at least 10% have been paid continuously on the Common Stock since 1904, and the average cash and stock dividends since 1914 on this stock have been over 16%. Over \$819,000.00 has been carried to surplus out of earnings in the past five years.

We Recommend This Preferred Stock for Investment. PRICE \$100 AND ACCRUED DIVIDENDS
