CHILDS' ESTATE **HOLDINGS SELL** FOR FORTUNE

Land That Was Acquired at About One Dollar an Acre In 1862 Brings Over \$106,000.

Romance and good, hard cash were both found in the big Childs' land holdings, acquired south of Omaha 60 years ago. This was proven by the prices at which they were origin-

ally bought and sold recently.

The last big tract of the Childs' property has just been sold to Shuler & Cary, agents of the estate, who bought it as an investment.

The price for the 265 acres in this tract was \$106,000, or nearly \$400 an acre. It is said that Charles Childs acquired the land in 1862 at about \$1

Charles Childs bought this and many hundreds of acres of other land in the same vicinity along the present Fort Crook boulevard on advice of his brother-in-law, Walter Lowrie, then secretary of foreign missions for the Presbyterian church and formerly secretary of the United States senate in the days of Clay, Calhoun and Webster.

All that remains in the hands of his descendants of the vast lands which Charles Childs acquired in those days is a 21-acre tract which holds the Lowrie Childs country home and this has also been placed on the market through Shuler & Cary. A picture of the trees on the lawn just south of the Childs home forms the front cover decoration of the May issue of "Country Life." The house was built in 1897.

\$750,000 for Oil Land.

Edward R. Wilson of this city and associates have just paid \$750,-000 for some Texas oil land. They bought 25 acres near Burkburnett for \$30,000 an acre. This land is situated near Wichita Falls, Tex. This company is now drilling five new wells, having one already in operation which is producing 2,100 barrels of oil per day.
