The upturned border may be of black charmeuse, silk braid or white broadcloth. The cuffs match the deep "V" collar of ivory charmeuse. ## Baldness Conquered

A veteran business man, who was almost completely bald and had tried tonics, lotions, shampoos, etc., without benefit, came across an Indian elixir by which he grew a complete crop of healthy, luxuriant hair that he now possesses.

"KOTAL" Others—men and women—have reported remarkable aid to hair growth, relief from dandruff, cessation of falling hair by using Kotal.

In a vast number of cases, when hair falls out, the roots are not dead, but remain for some time imbedded in the scalp, like seeds or bulbs, needing only fertility. The usual hair tonics, etc., are of no avail in such cases. The Indian's method is purpose to nourish the hair and stimulate the growth. It costs so little to try Kotal that it would be a pity to lose the benefit of luxuriant hair which this oft-efficient elixir is doing for you.

For men, women's and children's hair. If you are bald, or losing hair, or have dandruff, you should try KOTAL. KOTAL may prove the one elixir needed for your scalp and in such case it is a pleasure to observe the starting of new hair and its steady increase. Hair Growth until a prolific growth supersedes thin hair or baldness. You may obtain a full box of genuine Kotal at any busy drug store, or a proof box of Kotal will be mailed, postpaid, if you send your address with 10 cents, silver or stamps, to John Hart Brittain, BP-301, Station F, New York City, N. Y.—Adv.

## How Nuxated Iron Helped

Put Me In Such Superb Condition As To Enable

## Me To Whip Jess Willard

And Win The World's Championship

## JACK DEMPSEY

"TIGER OF THE RING"

Tells a Secret of His Training—

Recommends Nuxated Iron To

Every Man and Woman Who

Wants To Build Greater

Strength, Energy and Power

Today recognized as the physical superior of any living man—the Superman of the Age—Jack Dempsey, Heavyweight Champion of the world, explains below the part Nuxated Iron played in helping to prepare him for the supreme test of his career. In his decisive, smashing victory over the mighty Willard who had never before been knocked from his feet, Dempsey displayed a dynamic, overwhelming strength and power never before known in the history of the ring. That he took Nuxated Iron as a part of his training is convincing evidence of the importance Dempsey attached to keeping his blood rich in strength-giving iron, and the high regard in which he holds Nuxated Iron as a master strength and blood builder.

In a statement made at his training quarters in Toledo, the scene of the big battle, Jack Dempsey said: "After commencing the use of Nuxated Iron during my training for the big fight with Jess Willard, I soon noticed that I could stand harder strains with less fatigue than before, and I realized that I had found a tonic and blood builder which played an important part in getting me into fine condition. Formerly I had relied solely upon strength-building foods and outdoor exercises to keep my blood rich in red corpuscles, but with the World's Championship at stake, I felt that I should leave nothing undone that might help to win. I was advised of the great value of Nuxated Iron for building up the blood, strengthening the nerves and aiding in keeping the body fit, and I am firmly convinced that its use has helped to wonderfully increase my stamina and endurance. Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case where the possession of superb endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In connection with the foregoing statement made by Jack Dempsey, Dr. James Francis Sullivan, formerly Chief Physician of the Bellevue Hospital, (Outdoor Dept.), New York, and the Westchester County Health Inspector and Chief Physician on the Board of Health of the City of New York, says: "Strength and vitality of body and mind are derived from the blood and the

blood in turn derives it from the food we eat and the oxygen contained in the air we breathe. But unless the blood is rich in iron to increase its oxygen power, it cannot develop living tissue muscle and brain or keep active the vital forces. Strong, healthy men and women make their vitality and power and energy masters of their own destinies. It is surprising how many people who do not get along in life are in reality suffering from iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity, prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

Manufacturers Note: Nuxated Iron which has been used by Jack Dempsey and which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, and does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by the five Sherman & McConnell Drug Stores and by all other druggists.—Advertisement.

Dr. John J. Van Horne, formerly Medical Inspector and Chief Physician on the Board of Health of the City of New York, says: "Strength and vitality of body and mind are derived from the blood and the

And Win The World's Championship

## JACK DEMPSEY

"TIGER OF THE RING"

William Harrison ("Jack") Dempsey—

Although like an untamed tiger in the ring, the intensely human side of the new World's Champion is clearly shown by a remark he is quoted as making just before the "big fight," in which he said: "I have telegraphed my Mother that I will win the championship and I am not going to disappoint her. I'm going to win that title if for no other reason than because I've promised her 'I would.'"

Dempsey describes here the part Nuxated Iron played in helping him to keep his promise to win the title.

According to reports Dempsey placed himself unreservedly in the hands of expert trainers and competent physicians and heeded their advice. In my opinion whoever made the suggestion that Nuxated Iron should play a part in getting Dempsey into condition is to be commended for his foresight. No man without plenty of rich, red blood filled with health-giving and strength building iron could withstand the terrific onslaughts of a giant like Willard. It should occur to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron, how much more important it is for the average man or woman to see that there is no lack of iron in the blood. There is today a surprising number of persons who suffer from iron deficiency. Many a capable man or woman lacks the power and energy to back up their mentality with the physical strength and energy which comes from having plenty of iron in the blood. Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron."

Dr. John J. Van Horne, formerly Medical Inspector and Chief Physician on the Board of Health of the City of New York, says: "Strength and vitality of body and mind are derived from the blood and the
