

SCHOOLS AND COLLEGES

Waiting -- Wishing -- Regretting

Is this your program? Is it satisfactory? Is it profitable? Those who begin one or more of our result-getting courses now, will have nothing to regret in after years.

Decide Now—Begin at Once. Illustrated Catalog Free.

NEBRASKA SCHOOL OF BUSINESS

T. A. BLAKESLEE, President. Gas and Electric Bldg. Corner O and 14th Sts., Lincoln, Neb.

Makes Geological Survey of Island of Anti Costa

To gain field experience in geology, seven University of Wisconsin students, under the direction of Prof. W. H. Twenhofel, left last week to make a survey of the Island of Anti Costa at the mouth of the St. Lawrence river. They will make a geological survey of the island, prepare a map, and publish a report of their work. The island is about the size of Dane county, and the expedition will devote three months to the work.

GREAT GROWTH IS SHOWN BY STATE COLLEGE

School at Hastings Makes Unprecedented Record in Many of Its Departments.

Hastings college is one of the really strong educational institutions of the state. It grew very rapidly in the years just preceding our entrance into the war, having doubled its enrollment twice within four years. One hundred and eighty-nine of its students and faculty entered the war, but in spite of that fact its enrollment held up so that the year just closed has shown the second largest attendance in its history.

Following the construction of the Bible home, which is to be built by L. O. Williams of University Place on the school question unless you have read the catalog of the Jackson University of Business, Chillicothe, Mo., the greatest school and college prospectus ever printed. An education within itself. After reading the book carefully you will be able to separate the chaff from the wheat from the stalk in the school and college field. SHORTHAND, BOOKKEEPING, BANKING, TYPEWRITING, PENMANSHIP, ENGLISH, CIVIL SERVICE, and ADVERTISING are the chief courses taught. Don't be like a sheep that follows blindly. Investigate. Give Jackson University a chance. Only independent business college in the West.

YOU ARE NOT INFORMED. YOU CAN SAVE. Correspondence School and coming to Chillicothe later to put on the finishing touches. Address WALTER JACKSON, Pres., CHILICOTHE, MISSOURI.

in memory of his son, Robert, who lost his life on the western front, the central building to be known as Liberty Memorial hall, will be erected. This is to be a handsome structure costing in the neighborhood of \$200,000. At the same time the Taylor dormitory will be constructed to furnish proper home conditions for our increasing numbers of young women. This will give Hastings the best dormitory system in the state. The Pratt Memorial chapel, costing \$50,000, will then be erected by Mrs. Harriet E. Pratt and son, Howard, in memory of Mr. George H. Pratt, for a long time a member of the board of trustees.

Courses demanded by post-war conditions are to be added this fall and special courses for returning soldiers will also be given.

Hastings has made an unprecedented record in oratory and debating the past four years. Fourteen intercollegiate contests in debate out of sixteen have been won and four first and three seconds in the oratorical contests have been pulled down by Hastings college. This brings its public speaking department to the forefront. In athletics it has won its share of contests.

Its alumni have been remarkably successful. During the present year one of its graduates was made president of the University of Colorado, another from the same class (1893) was made chairman of the Interstate Commerce commission. Its male alumni in the teaching profession in Nebraska, without a single exception, were re-elected to their present positions at largely increased salaries. Those who graduated within the last six years (including this year's class) average more than \$200 per month, the lowest yearly salary being \$1,600. Not only in the teaching profession, but in the ministry, in business and in the field of politics the Hastings college alumni are making good. The work of the institution will be greatly enlarged when the splendid plant now planned is completed.

The institution now has six buildings, a beautiful campus of 30 acres and one of the choicest cities in the west as its home.

St. Joseph Academy at Des Moines Offers Wide Scope of Study

Situated in a grove of ancient oaks and maples and surrounded by a campus of seventeen acres with avenues, lawns and walks, St. Josephs academy of Des Moines, Ia., affords every facility for mental and physical development. Pergolas, tennis and basket ball courts and a natural spring enhance the picturesque beauty of the grounds and offer every inducement to outdoor exercise.

The buildings proper include the academy, the conservatory of music and art and the auditorium which are modern in every respect. A library, containing 2,000 carefully selected volumes is supplemented by the use of the Des Moines public library. The laboratories are well equipped and provide for work in chemistry, physics, biology, and home economics.

No Letup in Demand for Skilled Office People

Mr. Kuhns, secretary of the Omaha Business College, seventh floor of the Bee building, reports that there seems to be no letup in the demand for stenographers and skilled office people. He says: "In a single day the past week, one of the leading law firms called on the college for a stenographer. A little while later, one of the largest wholesale houses put in an urgent call for three and said they would be willing to take beginners and pay them \$70 a month. While talking with them, a former Moshier pupil came in and said that through her husband's death, she has again taken up her stenographic work; her former employer has sought her out, and since working for him, several others have tried to employ her."

"Taking advantage of this need, some students, instead of waiting for the fall session, are starting now by 'Home Study' in the extension department, so as to be in the advanced classes at the opening on September 2, and be fitted out ready for positions at the beginning of the new year."

DAVIS ASKS FOR SUPPORT OF NEW CIGARETTE LAW

Attorney General Sends Letters to Prosecuting Officers Calling for Aid of All Citizens.

Lincoln, July 20. (Special)—Strict enforcement of the new cigarette law is asked for by Attorney General Clarence Davis in a letter sent out generally over the state to prosecuting officers and goes further than that and asks the united support of all law-abiding citizens in making the law effective. He says:

"I desire to call your special attention to the fact that today there goes into effect in Nebraska a new law governing the sale of tobacco and cigarettes. This law is a radical departure from the previous law of our state in regard to the sale of tobacco and cigarettes. It was passed by the legislature after the most serious consideration and a great deal of time and attention had been given to its preparation. We are all aware that during the past several years the law of this state relating to the sale of cigarettes was repeatedly broken. The law was passed in 1914, but owing to a pretty general public sentiment on the matter, it was very difficult to secure convictions. Under this new law, however, no person is permitted to sell or give away cigarettes to a person under the age of 21 years. This law was passed in 1918, and it is believed that by making lawful the sale of persons of older years, it would be more easy to secure convictions against dealers who sell cigarettes to minors. I am very anxious that a most strict enforcement of this law be made, and I recommend to your earnest consideration the immediate prosecution of any persons within this state who are guilty of selling or giving away cigarettes, cigars or tobacco to persons under the age of 21 years. It seems to me that under this new statute which permits the sale of cigarettes to adults, we ought to have the united support and cooperation of all law-abiding citizens in our earnest endeavor to prevent the sale of these things to people of tender years, to whom, these things are a mental and physical deterrent."

ONCE TO EVERY MAN

Comes the Time When His Success or Failure Depends Upon the Decision of His Superior. Futures Are Settled Then

The time will come when your employer will say to you: "Young man (or woman), I wish I could give you this position, but you have never prepared for it. You won't do. The man who takes it must be able to interpret operating reports, to analyze our own business conditions, to dissect costs; in brief to apply the acid test to figures. You should have trained in Accountancy had you wished to do important executive work."

Many a man and woman lose their identity in the Business World because they have not seen fit to employ their spare time by preparing themselves for the better positions in life when the opportunity affords and are relegated to the obscurity of a clerkship the rest of their days.

THE TRAINED MIND IS THE FACTOR which assures SUCCESS. It is nothing more than a question of having the proper kind of training, thereby being prepared when the opportunity arises.
THE BOOKKEEPER OR ACCOUNTANT OF TODAY must be a student of business and economic laws, possessed of a talent for organization and system and the determination of COSTS. He must be skilled in deep diving after facts, frequently through a maze of records, in order to obtain a detailed statement of operations and the resultant balance sheet.
CAN YOU SWING THE BIGGER JOB? No? Well, then, get in touch with the International Accountants Society, who have trained over 20,000 for Executive positions, many of whom are among the Leading Business Men of Today.
The tuition is low and monthly payments are based upon your earning power now. Write or phone us for our book, "How to Be an Accountant." Special appointments can be arranged for upon request.

International Accountants Society

Phone Douglas 6548. 638 Paxton Building. Omaha, Nebraska.

YOU CAN SAVE. Correspondence School and coming to Chillicothe later to put on the finishing touches. Address WALTER JACKSON, Pres., CHILICOTHE, MISSOURI.

I. The Immediate Field
The very heart and center of the corn and cattle country. That for resources!
Less than half dozen Protestant colleges within 75-mile radius.
That for outlook!
None (1) older, (2) better known, (3) more largely attended, (4) better endowed, (5) better equipped, (6) better manned. That for standing!

Stenographers Wanted

This notice is coming to us from the Government and from Commercial firms over a wide area. We are not able to supply this help. BUT—we are able and ready to TRAIN YOU to qualify for one of these positions in a remarkably short time, if you are ambitious enough to utilize a little of your spare time during the summer.

Our Extension Department will enable you to cover enough of the Course by Home Study, so that you can take up the more advanced work when the Fall Classes take up. In this way you can complete the Course in the shortest school term that has ever been done in. All instruction is INDIVIDUAL in our Extension work; therefore, you can begin on any day.

BUT TODAY IS THE BEST DAY OF ALL. Why not get in touch with us? Too much of the summer has already slipped by—don't lose any more time. Remember, your work is done at your home.

WRITE OR PHONE US AT ONCE FOR INFORMATION.
