Cattle—Receipts of cattle were 8,200 head, bringing the week's total to 39,160 head. It was another good firm market on native yearlings and heavy steers. Western beef was rather slow, early sales about steady with yesterday. Good feeders sold fully steady, but plain kinds and the less desirable stockers were draggy and lower. Butcher stock was again very slow and indications were for fresh declines of at least 25c or more.

Chicago Grain and Provisions.

Chicago, July 23.—After jumping to the highest prices yet for December delivery, the corn market today reacted under heavy profit-taking sales by holders. The bulge was due in the main to over-topping of all previous hog values and to dry, hot weather that tended to increase fear of crop damage. Nervousness prevailed at the close, which ranged from ¼c net decline to 1¼c advance, with September $1.94⅜ to $1.94⅞ and December $1.66½ to $1.66¾. Oats finished 1⅛c to 1½c down. In provisions the outcome varied from unchanged figures to 37c higher.

Unloading on the advance in the corn market came chiefly from longs, who believed the technical position had been weakened by the 10-cent rise which had taken place in the December option since Saturday.

Hedging of the new crop did much to weigh down the oats market, even before there was any talk of reselling by the government.

Provisions reflected the strength of hogs.

FINANCIAL

New York, July 23.—Developments were helpful to the further substantial advance of quoted values on the stock exchange today, the movement as a whole constituting another retreat of the short interest.

The optimistic views of industrial executives respecting threatened labor disturbances, news that Mexico will permit oil well boring, greater stability of sterling exchange and continued relaxation of call money were effective in overcoming fresh bearish aggressions.

Buoyancy accompanied the initial dealings, steels and oils advancing 1 to 4 points. From these groups trading soon switched to numerous other issues, particularly motors and their subsidiaries, including leathers and electric equipment, later comprehending food and tobacco shares.

Metals were intermittently active at moderate gains, but yesterday's broad demand for transportations was not resumed, even the low-grade rails lagging, with the exception of Texas & Pacific, Denver & Rio Grand preferred and St. Paul preferred.

Shippings were at their best in the final hour, coming forward on reports that definite negotiations were proceeding for an early settlement of the marine strike. The outstanding features of the day were Stromberg Carburetter and Lorrillard Tobacco at net gains of 20 and 15 points, respectively, the rise throughout the general list ranging from 2 to 9 points. Sales amounted to 1,550,000 shares.

Considerable buying of low-priced utilities featured the firmer bond market, the Liberty division showing marked strength. Total sales, par value, aggregated $12,800,000. Old United States registered 2s reacted ¼ per cent on call.
