## GOVERNOR WILL NOT ASK MONEY OF LEGISLATURE

### Denies Request of State Board of Control to Include Appropriation in Special Call.

Lincoln, July 25.—Governor McKelvie will not follow the suggestion of the State Board of Control to incorporate in the call for special session the appropriation of an additional sum so that state institutions may be able to run through the biennium without running out of funds. The board calls attention to the fact that during the last biennium the appropriation was inadequate to meet the advance in prices and ran short \$287,500, which the

last legislature had to include in its deficiency appropriation. Attention also is called to the fact that when the legislature made the appropriation for the present term members figured that prices would go down and actually made a smaller appropriation than was used by the institutions the last term. Instead of that prices are going up with every indication that they will go higher. In his reply to the letter of the board, the governor says that he realizes that the contention of the board is correct, but that he does not see his way clear to incorporate the matter in his call for the special session.

### Date Set for Hearing to Telephone Companies

Lincoln, July 25.—Representatives of all telephone companies doing business in Nebraska are called to meet at the office of the State Railway commission in Lincoln at 10 a. m. Wednesday, October 15, to show cause if they object to the commission putting in force installation, move and change-of-name charges to be applied generally.

  - MASTER OF ARTS: Georgian Adams, Raymond H. Lamber, Edwin Ayars, Isabelle C. Low, Louise B. Brownell, Louise Matheson, Josephine E. Graves, Rebecca Ruth Poska, Graduate Teachers' Diploma: Isabella C. Lova, Rebecca Ruth Poska.

## Equalization Board Reviews Deductions in Bank Assessments

Lincoln, July 25.—(Special.)—Nine counties have not made reports of valuation to Secretary Osborne of the State Board of Equalization, and until these are in the total valuation of the state cannot be ascertained. The secretary has authority under the law to send a man after the reports at the expense of the county if they are not on hand within a reasonable time. The state board met this morning and considered the matter of the First National bank of York, which had deducted from its assessed valuation \$5,500 for real estate mortgages, and the Fidelity Trust company of Fremont, which had deducted \$72,500, leaving its assessment at \$24,000. The matter of the assessment of 518 head of cattle in controversy between Box Butte and Morrill counties was also taken up by the board. The cattle are owned by Charles Tiernan, owner of ranches in both counties. Box Butte county claims that Tiernan turned in his assessment in Morrill county because he had had trouble with the assessor of Box Butte county. It is claimed the cattle were raised in Box Butte county and were assessed there last year. The matter will be referred to the Box Butte county board. The report of the assessor from Scotts Bluff county was not satisfactory in the mind of Secretary Osborne. Banks were allowed to deduct stock owned in federal land banks, interest on time deposits and to deduct real estate at a higher figure than was carried on books. All Omaha banks lived up to the law in making deductions and the board is satisfied with the reports from Douglas county.

## No Congestion Here Handling Enormous Nebraska Wheat Crop

Although wheat is coming onto the Omaha market at the rate of 300,000 to 500,000 bushels a day, railroad freight officials are of the opinion that it is going to be some time before any congestion will be apparent at the local grain terminals. The Omaha terminal elevators have a storage capacity of 15,000,000 bushels. At this time not to exceed 1,500,000 bushels are in storage. Grain is coming in fully as rapidly as usual at this season, but it is moving out in large quantities, being taken over by millers from the states to the south and east of Omaha. The Nebraska grain product is in great demand by outside millers, it having the reputation of making the best flour of any wheat produced in the United States.

## Approve Midland College Removal From Atchison

Fremont, Neb., July 25.—(Special.)—Dr. E. J. Stauter, president of Midland college, returned from Philadelphia where he attended a meeting of the national board of education of the Lutheran Synod at which the removal of Midland college to Fremont was approved. Dr. Stauter hurried to Atchison, Kas., where the college is now located, to make arrangements to move to Fremont for the opening of the fall term. A number of the professors of Midland college already have arranged to remove to Fremont, and have purchased homes.

## Platte Valley Farm Land Sells for \$475 Per Acre

Fremont, Neb., July 25.—(Special.)—Farm land in the Platte valley in the vicinity of Fremont touched a high mark when the W. O. Haseman 120 acre two miles north of Fremont sold for \$475 an acre. John Von Seggern of Boemer was the purchaser. Mr. Haseman has improvements that cost \$10,000 on the place. He made a profit of \$22,000 in five years.

## Omaha Firm Low Bidder on Paving Contract at Laurel

Laurel, Neb., July 25.—(Special Telegram.)—A contract for 20,000 yards of paving, to cost approximately \$82,000, was let by the board of trustees to the Western States Construction Co. of Omaha for \$4.10 a yard. Vitrified brick block will be used and the contract calls for the completion of the work this year.

## Nearly 70,000,000 Wild Animals Killed Yearly to Supply the Fur Market.

According to reliable information automobile owners are paying 22 cents a gallon in Sioux City for gasoline; 22 cents in Kansas City; 23 cents in Council Bluffs and 24 1/2 cents in Lincoln. There are only two items, widely divergent, but they tell the story.

## Fremont Man Makes \$300 Per Acre From Potatoes

Fremont, Neb., July 25.—(Special.)—Sam Maxwell, a Fremont truck farmer, is harvesting more than \$300 worth of potatoes to the acre, while most other gardeners are sadly disappointed in the yield of tubers. Mr. Maxwell has sold \$1,500 worth of spuds from less than five acres. He attributes his success to treatment of the seed before planting and regular spraying during cultivation.

## OMAHA MAN WILL EXAMINE STOCK OF ARMY SALMON

### Surplus Stock Ordered Confiscated Will Be Held Pending Investigation of Brokerage Company.

By E. C. SNYDER. (Staff Correspondent of The Omaha Bee.)—Washington Bureau, Omaha Bee. Washington, July 25.—M. B. Newman, president of the Newman Brokerage company of Omaha, it is understood, has been authorized by Quartermaster General Rogers to inspect a large quantity of salmon in storage in a government warehouse in Omaha to ascertain whether it is fit for human consumption. This order grew out of a number of letters received by Representative Jefferis from Mr. Newman who wrote him that there were 18,000 cases of tall red salmon in storage by the War department and asked that the congressman lend his assistance in getting the department to sell the same if the surplus stock will be available as the canned salmon was barren and the new salmon pack would not arrive for at least 60 days.

Mr. Jefferis took the matter up with E. C. Morse, acting director of sales of the War department. Upon investigation he stated that the salmon referred to was of the 1918 pack which had been found bad and was to be returned to the packers. He further stated that this return would be made through the pure food service in order that it might personally supervise its destruction.

This information was communicated to Mr. Newman who replied by stating that it was a source of great surprise to him to learn that last year's salmon pack of the brand mentioned was bad and that in his more than 15 years' experience as a broker he had found practically no trouble with the red Alaskan salmon as put out by reputable packers. He further stated that there had already been sold for shipment from the Pacific coast some of the same pack sold to the government, that the same had already been released and he knew the salmon to be good. Admitting that there is some salmon put up by irresponsible packers that may be bad, nevertheless Mr. Newman said he did not believe the statement that all the salmon of last year's pack sold to the government was deleterious to public health.

In view of this statement Congressman Jefferis thought it a proper matter for investigation and turned the matter over to his colleague, Congressman Reavis, chairman of the sub-committee of the special committee now engaged in investigating the War department. Mr. Reavis took up the matter with Quartermaster General Rogers, who has ordered that Mr. Newman be permitted to inspect the stock of salmon in storage in Omaha and report the result of his investigations.

## Funeral Held for Flyer.

Minden, Neb., July 25.—(Special.)—Funeral services for Lt. Charles Lamborn, Nebraska flyer, killed while employed as a government air mail carrier when he fell 6,000 feet near Dix Run, Pa., were held here today by Rev. W. S. Hampton.
