# MANY MEN VISIT **HEADQUARTERS** IN NEW YORK CITY

**Governor Receives Letter Tell**ing of Welcome Extended to All Returned Soldiers of State.

Lincoln, July 31.-Governor Mc-Kelvie has received a letter from the

esting and is as follows:
"I am enclosing a form letter, a copy of which is mailed to every Nebraskan who arrives in New York from overseas. We get a very god When the men reach our headquarters we give them as royal a welcome as we know how.

"We always have ice cream and cake to serve, and the good old American delicacy is certainly apspent several hard months on the other side with no opportunity to

partake of such luxuries. "Naturally a majority of the men are anxious to see as much of New York as possible in the short time they are here so we accept the nomination as official guide and information bureau.

Anxious for Home News.

"Some, however, are more anxious to get news from home and devote a large part of their time to reading their home town paper, visiting with the Nebraskans present and enjoying the hospitality of our club. 'Last week 256 men made use of

our headquarters, the week before 343. This week we had 358. These numbers are very representative of the average weeks and I believe are conclusive proof that the Nebraska headquarters is supplying a demand which could not have been supplied through a desk at the Hall of States. "We are open from 9 a. m. until

10 p. m., including Sundays, and any Nebraskan who comes within a block of Times Square cannot resist the invitation to pay us a visit because our large banner suspended in the center of the street attracts

"Through the efforts of Mrs. Scott, a large number of Nebraska ladies living in New York have been secured to act as hostesses and they assist materially in entertaining the men while here.

"In addition to the service rendered the men who locate our headquarters, we act as clearing house for mail, telegrams and messages of every kind. We are also in a posi- Former Mayor of Hastings tion to communicate with army headquarters here and we receive many inquiries as to the location o troops, the sailing of boats, the dates of their arrival and the like.

and she sees to it that their wants are cared for and that they are fre-

quently visited. "We are doing everything within our power to make the short stay of Nebraska soldiers and sailors in New York as pleasant as possible and the best evidence that we are succeeding is the appreciation shown by the men.

"I hope the work being done meets with your approval, but if you have any criticism or suggestions to offer, we will be very glad to receive them.
(Signed) "O. H. ZUMWINKEL." Invitation to All.

The form letter mentioned is as follows:

"Dear Nebraskan: Just heard you had returned to the good old U. S. A. Here's a hearty welcome from your home state. Get a pass as soon as you can and come to our headquarters, 125 West Forty-second street, just one-half block east of Times Square. You may expect to find your

home town papers, a nice place to rest, some of the home folks to greet you, and there may be some mail for you. You are sure to find good things to eat here and everything we have is yours for the asking.

We are here to do all we can for you, and all we ask of you is to give us the chance."

"He left his home town on his motorcycle with \$80 in his pocket but had to telegraph for more funds to help him through on the return trip, and left recently for home, via Winnipeg, which place he has decided to reach, though many have told him it is not possible to do so on a motorcycle. He has taken his holidays in this manner annually since 1902, and is well known in the United States.

## Can Lend More Money.

Washington, July 31.-A bill pernitting national banks to lend 25 per cent of their unimpaired capital and surplus, instead of 10 per cent, as fixed by existing law, was passed by the house and sent to the senate.
