Galesburg Woman Was On the Verge of Nervous Prostration-Tanlac Restores Health.

"I have improved so much in health since I took Tanlac, my friends and neighbors hardly know me now and I can hardly believe it myself when I look in my mir-ror," said Mrs. Harry Hatfield, of 455 Day St., Galesburg, Ill., re-

cently.
"I had been suffering for about three years," continued Mrs. Hatfield, "and was so badly run down in health and so weak and nervous my mother had to come from Missouri to stay with me, because, at e time, I was right on the verge of nervous prostration. I couldn't stand a bit of noise and was so awfully nervous sometimes I was nearly frantic. I was in such bad condition I could hardly eat or sleep, wasn't able to do my housework and just did nothing but suffer day in and day out. No matter how little I ate, gas formed in my stomach and I suffered with terrible cramping pains and had such awful headaches sometimes thought my head would split. I was troubled a lot with my kidneys, too, and my back ached so terribly at times I could hardly stand it. I finally got to where I never knew what a well day meant and was gradually getting worse and, al-though I took all kinds of medicine for my trouble, nothing gave me a particle of relief and I got very blue and despondent.

"One day my next door neighbor dropped in to see me and begged me to take Tanlac, because she said she had found it to be a wonderful medicine and, as her improvement was noticeable, I felt encouraged and when my husband came home I told him about it and he got me a bottle that very evening. Tanlac seemed to help me almost from the first, so I kept on with the treatment and the results I got were certainly remarkable. My nerves began to calm down and I started to sleeping better and found my appetite was picking up and what I ate agreed with It wasn't long before that awful pain in my back disappeared and now I can say I am com-pletely relieved of all my trouble and am perfectly well and strong again. I now eat three big meals every day and never have any uncomfortable feeling in my stomach afterwards and can sleep fine every night, and my nerves are so strong you couldn't tell I had ever been nervous at all. I feel bright and happy all the time now; in fact, I seem like a different person altogether, and am so thankful for the way Tanlac has helped me I can't keep from talking about it and my husband tells me people will get tired listening to me praise Tanlac, but I just don't care, because a medicine that will do so much for a person ought to be talked about."

Tanlac is sold in Omaha at all Sherman & McConnell Drug Company's stores, Harvard Pharmacy and West End Pharmacy. Also Forrest and Meany Drug Company in South Omaha and the leading druggist in each city and town through-out the state of Nebraska.—Adv.

Following the announcement of Attorney General Palmer in Wash-ington that Department of Justice operatives would be used to assist in enforcing the Lever food control law, Assistant United States Attorney Peterson of Omaha went to Lincoln. It is said he will confer with state officials in mapping out a campaign against profiteers in Nebraska. Local Department of Justice operatives are preparing to conduct an exhaustive investigation of alleged food profiteers in Nebraska and Omaha. W. B. Daly, chief of the local office of the Department of Justice, refused to state what plans had been made to enforce the food control law. It is rumored that active investigations and prosecutions will start at once.

"The governor has called a meeting August 14 of all persons interested in prosecuting profiteers," the state attorney general's office stated this morning. "At that time reports of officials will be received and a definite campaign outlined."
