Dundee. THOSE WHO LIVE IN **OUNDEE TAKE PRIDE**

IN SAYING SO.

IIN SATING SU. Dundee is one of the most attractive reationce districts in Omaha; many folks move out to Dundee; very few ever leave; the restrictions, here which have caused this addition to be built up more uniformly than any other in Omaha; the development of the vacant ground into building sites of high char-ster; the people themselves who have built and built on these same lots, are responsible for every owner taking a personal pride, not only in his prop-erty, but in the fact that his family lives in Dundee. Uniform restrictions and careful development result in good homes_good homes create stable val-ues.

\$2,000,000.00

The small lease of the Burk-Waggoner Oil Company in the Northwest Burkburnett Pool recently sold for \$2,000,000.00. This lease had only one producing well thereon. It has been only a few months since the Burk-Waggoner was organized-the company had only one lease-they drilled only one well-then they sold out for \$2,000,000.00 and every stockholder received the enormous sum of \$3,333.33 for each \$100 he had invested.

\$15,000.00 FOR EVERY \$100 INVESTED

Not long ago the Fowler Farm Oil Company of Texas was organized. The future of this company was most uncertain—its properties were small and unproven—yet it was able to raise enough money to drill a well. Soon after its first well was completed the company sold out and every stockholder received \$15,000.00 in return for each \$100 invested.

FIFTY NEW OIL MILLIONAIRES

These new oil fields of Texas have already made more than fifty new millionaires-no one knows how many more will be made. Neither is it known how many thousands have already made quick, independent fortunes in these same fields. Never before has such great wealth been so quickly accumulated nor by so many people. It may be truly said that here, money flows like water.

MORE THAN FIFTY PRODUCING WELLS

The INVADER COMPANY was organized two years ago. We began business with a paid-up capital of \$60,000 and one property with four producing wells. The growth of our company has been phenomenal. We now have more than fifty producing wells.
