Lincoln Bureau of The Omaha Bee

YIELD OF CORN IN STATE TO BE MORETHAN 1918

Excess of Crop Estimated at 51,744,000 Bushels Over That of Last Year-Potatoes Hit Hard.

Lincoln, Neb., Aug. 11.—A production of 174,830,000 bushels of year in the August crop report of of Agriculture.

conditions, estimates that this counties had an excellent condition, year's corn crop will yield 51.744,000 Northwestern Nebraska was in good bushels more than last year, when condition, but needing rain, the production was 123,086,000 bush-Condition of the crop was given at 81 per cent of a normal, compared to 88 per cent a month

Total production of winter wheat was given as 49,000,000 bushels, compared to 33,470,000 in 1918; spring wheat, 7,246,000, as against 9,663,000 bushels last year, and all wheat, 56.246,000 bushels, as compared with 43,141,000 bushels last

The report, which estimates the production of other state crops, is

'Winter wheat will average 14 bushels last year and the 10-year average 17.4 bushels. The total production is 49,000,000 bushels, compared to 33,470,000 bushels last

the time of harvest was 51 per cent, ises a much smaller crop than last more than \$100,000.

P. A. Barrows, Correspondent compared to 89 per cent a month | year. Moisture is needed at once ago. Spring wheat is a greater dis- to prevent further deterioration. appointment than winter wheat, due largely to black stem rust, although

000 bushels, compared to 43,141,000

"The August 1 condition of corn was 81 per cent compared to 88 per cent a month ago, which indicates a production of 174,830,000 bushels compared to 121,080,000 bushels last year. The deterioration is confined largely to counties south of the Platte river and extending westward from the Missouri river to Adams corn was forecast for Nebraska this and Franklin counties. This section of the state was in very critical the bureau of crop estimates of the condition, much of the corn being United States Department of Agri- stunted and some of it had begun culture and the division of agricultural statitics of the Staate Board with few exceptions, was in good condition. Central, south centeral The forecast, based on August 1 and some of the western Nebraska

Oats Crop Large.

"The condition of oats at the time of harvest was 85 per cent, compared to 95 per cent a month ago. This indicates a production of 73,-408,000 bushels, compared to the final estimate of 56,188,000 bushels last year. The southeastern quarter of the state has a better crop of oats than the northeastern quarter, which is rather exceptional. There was very little rust on oats grown south of the Platte river, which may account for the relatively better yield than winter wheat, as both crops ripened under similar bushels per acre. The yield was 11.1 weather conditions and oats are considered to be more susceptible to damage from high temperature than

pared to 33,470,000 bushels last year. The test ranges from 63 reduced from 91 per cent to 69 per pounds to 48 pounds or less, the average being considerably lower than usual. The weather was generally excellent for harvesting and threshing. A large per cent of the threshing was stacked.

Hay Crop Outlook Good.

"The condition of all hay is good. other factions may be partly responsible. The indicated yield is The first crop of alfalfa was very large and the second crop was good. 11.9 bushels last fear, and the production 7,246,000 bushels, compared to 9,663,000 last year. The preliminary estimate of all wheat is 56,246,
other sections, which have been favored with moisture last month will have a good third crop, while in other sections the crop has been damaged by drouth These sections, which have been fadamaged by drouth

The condition of sugar beets is 87 per cent compared with 89 per cent a month ago. Insects were in much evidence this year and the supply of irrigation water is reported to be short. The acreage is the largest in the history of the state.

"Estimates of important crops for the United States is as follows: "Winter wheat, 715,000,000 bushels compared to 558,499,000 bushels last year. Spring wheat, 225,000,000 bushels compared to 358,651,000 bushels last year. All wheat, 940,-000,000 bushels compared to 917,100,-000 bushels last year. Corn 2,788, 000,000 bushels compared to 2,582, 814,000 bushels last year. Oats, 1,266,000,000 compared to 1,538,359,-000 bushels last year."

Business Section of Davey, Neb., Destroyed By Fire; Loss \$100,000

Lincoln, Neb., Aug. 11.—(Special.)
—The village of Davey, Neb., 12
miles north of here, was virtually destroyed by fire early Sunday.

The fire is believed to have started from a candle in a Catholic church during the morning services. The church, the general store of Hotchkiss & Co., another general store, the F. M. Whipple drug store, the postoffice and the telephone buildwere completely destroyed. Shortly after the town had sent out a call for help to Lincoln, the buildings, including the telephone com-

ABOUT 250 FILE AS CANDIDATES CONVENTION

Primaries to Be Held Septem ber 16 in Districts Where Three Times Number Reguired Are in Field.

Lincoln, Aug. 11 .- So far there appears to be little doubt but that there will be candidates enough for the nominations to the constitutional convention. The legal time for filing expired last Saturday, but so far as is known by the filings in the office of the secretary of state and the county clerks of the various counties there about 250 filings.

In districts where there are three imes the number of candidates as places to be filled there will be a primary held September 16, where the elimination process will cut the number to twice the required delegates in the convention, and under the filings so far half of the districts will not require a primary to be

SENATE TO TAKE Commander Is Promoted To Junior Lieutenant To Junior Lieutenant **BILL FOR ACTION**

Sub-Committee "Pulls Teeth" of More Drastic Provisions of Measure Passed In House.

(By Associated Press) Washington, Aug. 11.—Prohibi-ion enforcement legislation advanced another step in congres today, when the senate judiciary committee began consideration of the bill passed by the house last June as amended and liberail ed by the udiciary subcommittee.

The subcommittee eliminated several drastic house provisions and modified others. In its work the subcommittee, comprising Senators Sterling, republican, South Dakota, chairman; Fall of New Mexico and Norris of Nebraska, republicans, and Overman of North Carolina, Walsh of Mostana and King of Utah, democrats, first revised the senate enforcement bill and then incorporated their amendments in the house bill. The subcommittee left unchanged the house definition of intoxicating beverages as those containing onehalf of I per cent or more of alcohol.

May Make Own Liquor. As revised, the bill will not inter-

fere with storage and personal use of intoxicating liquors in homes. Probably the most liberal amend-Auburn, Neb., Aug. 11.—(Special ment to the house bill is a provision exempting from penalties any pertioned the city council to hold a speilities of the municipal light plant use in his house.
