Lincoln, Aug. 15.—All arrangements have been perfected for the Nebraska Sons of Veterans' special train, which will run from this state to the national G. A. R. encampment in Columbus, O., September 7. This train will carry the department heads of the G. A. R., Sons of Veterans, W. R. C., Ladies of the G. A. R., Daughters of Veterans and S. V. auxiliary, delegates and their families.

The Douglas county contingent will leave Omaha over the North-western Sunday, September 7, at 6 o'clock, the train consisting of Pullman and tourist sleepers and chair cars, and will be attached to the official train at Missouri Valley, which will leave Lincoln at 4 o'clock.

The fare from Omaha will be \$17.95 for the round trip, which includes the war tax. Parties going on the special via Chicago may return any other route they wish via St. Louis and Kansas City. It is

expected that there will be approximately 500 people from Nebraska on this train. Parties desiring sleepers on Omaha must confer with Mr. Mallison in the McCague building, who has charge of assignment of berths. Parties going on the official train from Lincoln will notify Harmon Gross, assistant adjutant general of the G. A. R., state house, who has charge of assignment of berths. Passengers from the west should join the special at Fremont.

The train will go through to Columbus intact and without change, and will be switched to the Pennsylvania road in Chicago without having to go through the depots, thus doing away with any delays, and will reach Columbus Monday.

Stripped of Motors, Machines Were Stacked In Piles. Soaked In Oil and Burned.

Sioux Falls, S. D., Aug. 15.—(Special.)—Henry Brown, a Sioux Falls boy, who served in France as a sergeant, first class, in Third company, Second Air Service Mechanics regiment, was not only a witness, but an actual although unwilling participant in the deliberate destruction in France this spring of many thousands of dollars' worth of American government property, acting under orders which he was obliged to obey.

While not a flyer, he was stationed at the largest aviation field in the world, Issoudun, about 150 miles from Paris, and, according to his story, personally helped to demolish over 1,000 automobiles, dozens of airplanes and scores of motor trucks, all of which, he says, appeared to be in workable condition.

Brown states that he has his own theories for the wanton waste of material. Officially he is unable to give the cause of the instructions issued to him last December and January, but he says he believes the large quantities of airplanes and cars. On orders received late in December of last year he shipped a number of airplanes to Romorantin, after first removing the motors, as instructed by his superiors. Then, later, they commenced to hear that the airplanes were being burned in large quantities at Romorantin.

"And, of course," he said in relating the story, "the boys commenced to talk about it." In January, he states, they received orders to burn the planes on their field, and this they did, after stripping of the wings and removing the motors. "The wings," he said, "we piled with the planes, putting usually 12 to 15 planes in a pile, and it made quite a stack. Then we applied oil liberally and then a torch. You should have seen those planes burn. They made some bonfire, I'll say."

Brown does not know what became of the motors, as they were taken out of their charge.

The Bee's Fund for Free Milk and Ice

Have you ever gone without a bite to eat for 24 hours? If you have you can, to some small extent, realize the suffering frail little babies undergo when their only nourishment, milk, is delayed.

Picture, if you can, a helpless baby, faint from lack of food, and weakened by the long weeks of constant high temperatures. You can almost hear its weak, plaintive cries, and the sob of the mother who is unable to buy it nourishment.

Not a pleasant picture, but there are many such cases in Omaha now. NOW is the crisis in the baby's life. If cool, fresh soothing milk can be bought for it, all is well. If not all efforts to keep it alive during the past tormented weeks have been in vain.

WILL YOU RESPOND TO THE CRISIS WITH A CONTRIBUTION TO WHICH CAN HELP SUCH CASES?
