

Built by the Makers of the First Pneumatic Tire in the United States

LONG-LIFE Kokomo TIRES AND TUBES

5000 MILE GUARANTEE

KOKOMO Long Life Automobile Tires and Tubes are manufactured by the Kokomo Rubber Company, which, for more than 24 years, has been producing pneumatic tires and rubber goods, and which has, during all of those years, maintained for itself a reputation second to none for high-grade goods and for fair and equitable dealing.

The first pneumatic automobile tires made in America were designed and manufactured by the Kokomo Rubber Company, approximately 24 years ago. These tires were of the single tube, pneumatic type, 36x2, and were used on the first gaso-

line automobile made in America. This machine, with its Kokomo Tires, is now one of the permanent exhibits at the Smithsonian Institution, Washington, D. C.

Wonderful progress has been made in the tire industry since those early pioneer days. Automobile tire construction has kept pace with the development and perfection of the automobile itself. Today Kokomo Tires are manufactured in a thoroughly modern factory, splendidly equipped with the most modern and improved rubber-mixing machinery, tire-building machines—in fact, with every device and process that can possibly aid in producing the best tires in the most economical way.

There Is No Substitute for Quality

Tire prices and mileage guarantees may fluctuate, extravagant claims may be made for cheaper tires and tubes, but quality such as in Kokomo Tires and Tubes is beyond improvement. It, therefore, follows that a decrease in price would mean a decrease in quality—a decrease that increasing the mileage guarantee would not improve in the least. There is no substitute for quality, the factor that enables the KOKOMO TIRES to give more miles than any other tires manufactured.

Regardless of past service rendered, if a Kokomo Tire proves defective even after 5000 miles, an adjustment satisfactory to the user will be made.

Convenient Tire Shops—Alert Service Men—No matter which direction you travel or how far, there's a Kokomo Tire Shop close at hand to make your journey pleasant.
