WILSON URGED TO PROTECT U. S. FOREIGN TRADE

Senator Owen Asks Extension of Credits to Cover European Purchases—Fears Business Reaction.

Washington, Aug. 22.—President Wilson has been urged in a letter from Senator Owen, Oklahoma ranking democratic member of the senate banking committee, to take steps to protect the foreign commerce of the United States and bring about an extension of credits to cover European purchases. The letter as inserted in the Congressional Record, also proposed that means be provided to pass upon the validity of European securities offered for sale in the United States.

"Unless immediate steps are taken," Senator Owen said, "to accomplish these results, I fear a serious reaction will take place in the United States by cutting off a large part of our foreign market for our surplus products. I agree that prices should come down but the reduction should be by the elimination of excess profits artificially placed upon goods, and they should not come down by cutting down the wages paid to labor."

"Poor" Clown Leaves \$140,000 to Lodge in Token of Gratitude

Chicago, Aug. 22.—Tommy Denier, famous in many countries as "Humpty Dumpty" and for 40 years regarded as the world's greatest clown, died two years ago in the poorhouse at Kingston, N. Y.

For the last two years of his life the Theatrical Mechanical Association—the organization of stage workers who are never seen by the public—sent him money. When he died it was Chicago lodge, No. 4, of the association that brought his body here and laid it to rest beside those of his first wife and daughter in a local cemetery.

"Poor Tony, he died broke," the theatrical profession said, and laughed sorrowfully over that clause in his will which bequeathed "money and lands and earthly goods" to lodge No. 4 in recognition of the kindness it had shown him.

Recently, however, the theatrical profession gasped with astonishment—for it learned the lodge had actually received from the clown's estate \$140,000 in stocks and bonds.

"Where did he get it?" the surprise done asked. "He must have had it all the time and have been testing out those who called themselves his friends when he was known to be wealthy," some surmised.

Whatever the reason, the fact that the stocks and bonds exist and are now in the hands of Emil Geis, president of lodge 4, T. M. A., cannot be denied.

"They were sent to us by the probate court of Kingston," said Mr. Geis. Denier had made much money in his life. He played with Frank Fox in "Humpty Dumpty" for 20 years, appearing in all parts of the world.

Britain Planning Great Peace Parade

London.—A great parade of detachments of every branch of the fighting forces of the British empire, including the women's organizations engaged in war work, the National Volunteers, the Special Constabulary and other groups which contributed to the victory of the allies, is to be the principal feature of a great peace celebration now being planned to take place in July. The government committee, of which Lord Curzon is chairman, is now considering the plans.

The celebration is to cover a period of three days. The great military parade is to be held on the first day and is to be duplicated as far as possible in three or four of the larger provincial towns. The second day is to be devoted to processions of local troops in the London boroughs and, it is hoped, through every town in the kingdom. The third day will be given over to various peace meetings and jollifications.

The first of the three days of public holiday will be ushered in by a great thanksgiving service conducted by the archbishop of Canterbury in Westminster Abbey. A proposed for the evening of the same day. The king and queen are expected to be present at both.

Forestry Ass'n Warns Against "Bad Big Four"

Washington, Aug. 22.—The forest world has a "Big Four," too, and they get in their worst work in the month of August, says the monthly warning issued by the American Forestry association, which will send any reader of this paper a free bulletin on tree planting. The "Big Four" line up this way: Tussock Moth, White Pine Weevil, Locust Miner, The Borers.

Trees are appreciated the most in the hot month of August, and the American Forestry association calls attention to the forest fires that have been sweeping through several states as one of the reasons for a national forest policy, which is so badly needed at this time. For leaf-eating insects arsenate of lead of a standard brand is the thing. Proportions should be about one pound to two gallons of water. For plant lice, whale oil soap at one pound to five gallons of water will do the business. The pruning of shade and ornamental trees can be begun this month, and evergreens can be transplanted after August 15. Egg masses of the tussock moth should be collected and burned, as should the cocoons of the bog worm and similar insects.

Zeebrugge Memorial. London.—The Zeebrugge Mole Bell has been turned over to the city of Dover and will be hung in a small tower in front of the old Elizabethan mansion now used as a municipal building, as memorial to Dover's war heroes who went "west."
