Cattle—Receipts of cattle were 940 cars or around 24,400 head, this may prove to be the largest run ever marked up here. Trade was extremely draggy on all classes of stuff, only a few corn feds were on sale. Prime steers at $17.50 were not much, if any lower, than last week. Western beef was extremely slow and 25@50c or more lower. Butcher stock showed similar declines. Early sales of stockers and feeders were 25@50c lower than the low spot last Friday.

### Chicago Grain and Provisions.

Chicago, Aug. 25.—The corn market was unsettled today. Prices at the start were lower, followed by a bulge which gave way on moderate selling early, to rally again with a stronger undertone which held prices fairly strong until the close of the session, though fluctuations were observed throughout the day.

Commission house buying was the principal support of the rallies.

Corn closed strong at nearly the top figures of the day, prices being 1⅝ to 2¼c net higher, with September at $1.80½ to $1.80½, and December at $1.43¼ to $1.43⅝. Oats closed a shade down to ⅜c higher, net.

Offerings of Texas corn in large quantities and a general bearish sentiment among traders were given credit for compelling the declines and shorts seeking to cover, together with commission house desire to buy, brought about the upturns. Country offerings were heavier, but shipping demand was not impressive.

There was a fairly active domestic demand for oats. Prices moved in sympathy with corn and rallied after an easy opening, though oats prices fluctuations were in narrower limits. Receipts were less large than had been expected. Closing prices were near the top.

Provision prices averaged lower with grains through most of the session and the advance at the finish was moderate. The greater part of the trade was in lard.

## FINANCIAL

New York, Aug. 25.—Attempts, evidently of professional origin, were made to depress prices at the outset of today's dull stock market, but these were abandoned after the initial stage, the list closing with a number of substantial advances.

Early selling, which caused leaders, especially speculative issues, to decline from one to seven points, seemed to have its genesis mainly in last Saturday's unfavorable bank satement and the more adverse industrial advices over the weekend.

The confidence with which stocks were absorbed on the reaction prompted hasty covering of shorts. The rebound not only cancelled most losses, but was materially assisted by the first impressive demand for rails since the promulgation of the ultimatum by the railway brotherhoods.

Buying of transportations coincided with suggestions that an increase of the railway wage scale, which Wall street generally regards as highly probable, will be accompanied by another advance in freight rates.

Another encouraging factor was the sustained strength of sterling exchange, which augmented its recent belated recovery, demand bills on London selling at their best quotation since the early days of last week.

Call loans opened at 6 per cent for both grades of collateral, holding at that figure throughout the session, in comparison with last week's final rate of 8 per cent. Time money ruled at the familiar 6 per cent with a smaller inquiry.

Apart from rails, at extreme gains of one to four points, motors and equipments represented the stronger features, United States steel closing unchanged after dropping back to par. Sales amounted to 685,000 shares, an unusually small total.

Bonds were featureless, except for strength in secondary rails and slight easing of Liberty issues. Total sales, par value, aggregated $11,200,000. Old United States bonds were unchanged on call.
