In responsible quarters there is. of course, no tendency to criticise Berlin and imposed our terms upon eclipsing our own. In three months these transactions, but on the contrary American foresight and enterprise are admired, while it is considered a good omen that American business men should be convinced of the necessity of closer economic relations with Europe.

Bearing Resentment.

The former Orlando-Sonnino government is bearing the brunt of the nation's resentment. Both statesmen are charged with having been blind to the facts of the situation and with having gone to the Paris conference with nothing else in view but the obstinate policy of territorial gains based on the pact of Lon-This policy today seems altogether discarded. Premier Nitti is above all a practical businessman and his foreign minister, Signor Tit toni, is well known for his diplomatic suppleness. From the first days of his arrival in Paris Tittoni et it be known in allied circles that Italy would not be as stubborn as it was imagined with reference to the Adriatic question.

Can't Afford Enemies.

The view of the present government is that Italy cannot afford to make enemies and that in its present position economic problems must take first place, instead of purely territorial aggrandizements. This new policy has borne fruit very mickly and already the feeling of bitterness against France and against America, which existed unquestionably a month ago, has given place to a calmer view of the situation. People are looking facts in the face and are no longer letting passion run riot.

been officially denied by the State The diplomatic correspondence

between Dr. Reinsch and the Chinese government through which China was induced to cast her fortunes with the allies has not yet been published by the State department. All requests for it have met with refusal.

In the eyes of the Chinese the fact that the United States yielded to the compulsion of Japan does not mitigate the deception which they feel was practiced upon them.

With the Chinese feeling this way about the matter, it can readily be understood that Dr. Reinsch's posiion as the medium through which the American promises were made to China would be most embarrassing. He is in the position of having been repudiated by his own gov-

FARMER CLARK DRESS HIMSELF

Tanlac Ends Ten Years Rheumatism—Gains Eighteen Pounds.

"There: that's the stuff that set my stomach and kidneys right and drove the rheumatism out of my arms and legs after I had suffered torture for over ten years," said L. H. Clark, a well-known farmer of Brimfield, Ill., as he pointed to the Tanlac display in the Sutcliff & Case store at Peoria, recently.
"My neighbors will tell you," he

continued, "just any time you ask them, that they never saw a man come out like I have. Why, I have gained 18 pounds in weight and can do more work than at any time in ten years. Before I started on Tanlac my stomach just seemed to be almost completely played out. Every bite I would eat would get as sour as vinegar and pretty soon gas would form and cause such awful cramping pains that I could my eyes, everything seemed to start turning over. I finally got so I ouldn't eat much of anything and was so run down and weak that couldn't work regular. I always managed to drag around and do the ittle work about the barn until my kidneys got out of order and I got the rheumatism, and then I was laid up for weeks at a time. I've seen the time when I couldn't have walked from the house to the barn to save the best horse I've got, I was so crippled up with rheumatism. My legs were swollen up to twice their natural size and I couldn't take a step without just suffering

like 'blue blazes.' "My back was in such a bad shape with rheumatism that if I stooped over to pick up anything I would just see stars, and there were weeks at a time when I had to be perfectly quiet. I could hardly dress myself and went down so fast that no one thought I would ever be well again. Well, I was just about ready to give up the fight when I at last ran across this Tan-lac. After I commenced taking this medicine I soon started gaining ground and it wasn't long until I was well on the road to recovery. I found that it was just what I needed and I never allowed myself to miss a dose. Well, the results are that I am now perfectly sound and well and know what good health is for the first time in ten years. can eat just anything and my stomach feels just like a new one. My kidneys don't bother me any more and I never feel a sign of rheumatism, and I sleep so sound that the horses might kick the barn down and I don't believe I would hear them.
