Real Wonder-Worker For Wrinkled Faces

Those who have tried all sorte of socalled "wrinkle-removers" in a vain effort to lose those unwelcome traces of
age, illness or worry, can scarcely find
words to express their delight with the
wonderful saxolite formula, once they have
given it a trial. The success of this
method is due not alone to its marvelous
effectiveness—upon the despest lines and
crowsfeet, as well as upon the very fine
ones—but also to its surprisingly quick
action and its entire harmlessness. Its
simplicity and its inexpensiveness are
other commendable features, for one need
only dissolve an ounce of powdered saxolite in a half pint witch hasel and bathe
the face in this solution. At once a remarkable transformation is beheld.

It is not only the effect on wrinkles
and creases that is so noticeable, but
facial contour is remarkably improved
and the face looks much younger. One
should be sure to ask the druggist for the
powdered saxolite. The lotion, being so
refreshing, is very grateful to tired, perspiry faces.—Adv.
